THE SITUATION IS BETTER

IN FINANCIAL CIRCLES SO REPORTED IN DISPATCHES FROM NEW YORK.

DESPITE IT, OTHER BANKS CLOSED

Run on Trust Company Continues—Empire City Savings Bank, Twelfth Ward Bank and Hamilton Bank Close

New York, Oct. 24.—The financial situation is reassuring. A series of conferences last night, participated in by Secretary Cortelyou, J. Pierpont Morgan and representative bankers, lasted until 1 o'clock this morning, at which time Mr. Cortelyou gave out a statement in which he said:

"Those familiar with the facts have known that the situation was made serious largely by the circulation of unfounded rumors and the unreasoning anxiety of many who thought only for a moment.

"Strong and able men are rendering aid, and in behalf of the treasury department I may say I believe it my duty to do so, and I shall do in the largest way possible whatever be necessary to afford relief. I have directed deposits in this city to the extent of twenty-five million dollars."

The run on the Trust Company of America was continued this morning.

The Hamilton bank, in West One Hundred and Twenty-fifth street, suspended payment today. It is announced that the bank is solvent, but in justice to the depositors payment was suspended until public confidence is restored. It was one of the smaller institutions.

The Twelfth Ward bank today suspended payment to depositors. A state bank examiner was placed in charge.

The Empire City Savings bank, also in the West One Hundred and Twenty-fifth street, posted a notice this morning announcing a suspension for thirty days. Officials of the bank declare the institution is solid, but feared a run, owing to the suspension of the Hamilton and Twelfth Ward banks.

The Empire City bank owes depositors about three million three hundred thousand dollars.

Stock Exchange Did Not Open.

Pittsburg, Pa., Oct. 24.—The members of the Pittsburg stock exchange decided not to reopen for business today.

Banks Get Three Holidays.

Reno, Nevada, Oct. 24.—Owing to the general feeling of unrest that prevails in financial circles, Governor Sparks has declared today, Friday and Saturday legal holidays, and all banks throughout the state are taking advantage of the respite to get their affairs in such shape as to make failure impossible.

CLIENT SHOT HIS LAWYER

Former Then Suicided—Thought the Latter Will Die.

Laramie, Wyo., Oct. 24.—William Lepper, an old man, yesterday shot Judge Charles W. Brammell three times, then blew out his own brains. Brammell will probably die.

Lepper believed that Brammell, who was his attorney, was not properly looking after his interests.

Brammell is one of the leading democrats of Wyoming.

THE W. R. C. CONVENTION

FIFTY-TWO DELEGATES PRESENT FROM THE THIRD DISTRICT.

MET AT THE "ROYAL TRIBE" HALL

An Entertaining Program Is Being Carried Out—A Musical and Literary Entertainment to Be Given Tonight.

The thirteenth annual convention of the Women's Relief Corps, auxiliary to the G. A. R., of district No 3, is in session at the hall in the Royal Tribe of Joseph building today and will adjourn tonight.

About fifty-two delegates are in attendance, representing two corps from Kansas City, one from Jefferson City, one of fourteen members from Warrensburg, and the Sedalia corps.

Mrs. Sarah A. Allen, of Kansas City, president of the district, called the meeting to order at 10 o'clock this morning. Following the devotional exercises and introduction of delegates, Mrs. K. A. Easley delivered the address of welcome, to which Mrs. Cora C. Webber, of Kansas City, ably responded.

Mrs. Ira Bronson followed the address with a vocal selection, after which the address of the president, Mrs. Allen, was heard. The reports of the five corps in attendance was the next number.

After this a song was sung by Mrs. Bronson, with the Sedalia corps joining in the chorus, at the conclusion of which Mrs. Julia E. Dockery, of Kirksville, and Mrs. Mary M. Botkin, of Joplin, were introduced, each making a very appreciated talk.

Mrs. Anna D. Houts, of Warrensburg, read an essay on "Model Corps Woman," and was followed by talks on the Andersonville prison in Georgia by several delegates.

Adjournment was then taken until this afternoon. The opening number at that time was a paper on "Army Nurses and Experiences in Southern Lines," by Mrs. Alice C. Risley, of Jefferson City. A talk on "St. James' Home," by Mrs. Botkin, of Joplin, followed, Mrs. Bronson also talking part.

An essay on "Memorial University at Mason City, Ia.," by Mrs. Hinkle, of Kansas City, and one on "Loyal Women's Monument at Chattanooga, Tenn.," by Mrs. Elbertine A. Baldwin, of Warrensburg, were given.

Late this afternoon the annual election of officers will take place, followed by the exemplification of the ritual by the Sedalia corps, with Mrs. Dockery as inspector.

After this the reports of the credentials, courtesies, resolutions and auditing committees will be heard, then the installation of the officers-elect will take place, and other miscellaneous matters will be disposed of, after which the convention will adjourn.

The delegates were dined at the noon hour today at LeGrande hotel, and supper will be served there, and tonight the following program will be rendered:

Reading—Miss Lobenstein, of Warrensburg.
Song—Mrs. J. J. Bertche.

WOULDN'T LET HER WED

"A LITTLE MOTHER" ELOPES TO PROVIDE HOME FOR MINOR RELATIVES.

LOVES TWIN BROTHER AND SISTER

Promised Her Mother When the Latter Was Dying That She Would Always See That Children Were Cared for.

Clayton, Mo., Oct. 24.—Declaring that the reason she wanted to marry was to fulfill a deathbed promise made to her mother to provide a good home for her little 6-year-old brother and sister, Elbert and Cecia, twins, Miss Alice Pilger, 16 years old, was held by Sheriff Herpel in Clayton, St. Louis county, until her father arrived and took her to his home in Kimmswick, Mo.

Miss Pilger and her fiance, Andrew Bossler, accompanied by several of their friends, went to Clayton to get married.

Their plans were interrupted when William Pilger, her father, 'phoned the authorities to hold the girl, as she was under age. He arrived later and took her home.

Miss Pilger told Sheriff Herpel that she could not get along with her father, so had decided to make a home for herself.

Worthless Negroes Are Held On a Bond of $500 Each.

He was araigned in police court, before Judge Gresham, ex-officio justice of the peace this morning, and pleaded guilty to the charge. Judge Gresham held Williams to criminal court and fixed his bond at $500, in default of which he was taken to the county jail.

Before the same judge, Ernest Hutchinson, a notorious and worthless negro, aws arraigned, charged with sodomy, the complaining witness being Ben Redmond, the negro police officer, who caught Hutchinson in the act. The negro admitted his guilt and was held to the criminal court in a $500 bond, in default of which he, too, was taken to the county jail.

'THE APPEAL TO REASON'

SOCIALIST NEWSPAPER IS TO BE PROSECUTED BY UNCLE SAM.

TS CONTENTS ARE NOT PLEASING

Attorney General Bonaparte Has Instructed United States District Attorney Bone to Proceed at Once.

Girard, Kan., Oct. 24.—Acting under special instructions from Attorney General Bonaparte, United States District Attorney Bone, of Topeka, has begun criminal proceedings against the publishers of the socialist paper, the Appeal to Reason, Fred D. Warden, editor; Eugene V. Debs, editorial writer, and other members of the staff, because of a cartoon and article, which, it is stated, were objectionable to Mr. Bonaparte and to President Roosevelt.

This order was issued after the district attorney investigated the case and reported to the department of justice that there were no grounds for indictment.

The first article to which the administration at Washington objected was written by Eugene V. Debs, and was a denunciaion of the president for his attitude in the Haywood case in Idaho.

Another article specified is an offer of a reward for the kidnaping and return to Kentucky of William Taylor, fugitive ex-governor of that state; after the United States supreme court by the Moyer-Haywood-Pettibone appeal "had decided kidnaping to be an act of legality."

It was pointed out that President Roosevelt had personally contributed to the defense fund of Caleb Powers, the defendant in the Goebel murder case, while branding the Idaho prisoners as "undesirable citizens".

After the matter had been dropped, for lack of sufficient grounds, as the district attorney said, on which to base an indictment, the Appeal to Reason published a cartoon by Ryan Walker, caricaturing both Attorney General Bonaparte and President Roosevelt, after which the attorney general ordered the case reopened.

The action against the Appeal to Reason is based upon section 4988 of the federal statutes, which it is hoped to so construe as to define the first page of any paper as its "cover or wrapper."

The law prohibits the mailing of any paper when there appears upon such "cover or wrapper" any delineations, epithets, terms of language of a scurrulous, defamatory or a threatening character, or calculated by the terms or manner or style of display to reflect injuriously upon the character or conduct of another, and provides a penalty for each and every offense of five years' imprisonment at hard labor, or a $5,000 fine, or both.

WEEKS TO MEET ATTELL

The Little Fellows to Fight in Los Angeles October 24.

Los Angeles, Cal., Oct. 24.—All doubt of the scheduled battle for the feather-weight championship taking place was dissipated here when, at a conference of Freddy Weeks and Abe Attell, the little fellows, with the management of McCarey's Athletic club, it was settled that the contest take place here on October 29.

The men had been at outs on several minor points, but were induced to give over argument and come to terms.

TWO TOWNS DESTROYED

Mrs. Leslie-Carter Coming Jan 8

Mrs. Leslie-Carter, who is usually referred to as the Bernhardt of America, will present David Belasco's play, "Du Barry," in this city at the Sedalia theater January 8th.

Mrs. Carter's rendition of this role has proved the greatest triumph of the time—and the extent of this triumph can only be measured with her own supremely great successes in "Zara" and "Adrea."

Manager Olendorf says if Sedalia play-goers would prefer to see Mrs. Carter in "Zara," all that is necessary is to address him a postal card to that effect. It is up to the patrons to say which play they prefer.

CAN'T MOVE THEIR COAL

INDIAN TERRITORY MINES ON M., K. & T. RAILWAY CLOSE FOR A WEEK.

THERE IS A SCARCITY OF CARS

Shut Down Has Cost Operators Production of One Thousand Cars, for Which There Is a Great Demand.

McAlester, I. T., Oct. 24.—All coal mines on Katy lines throughout Indian territory have been idle since Tuesday evening, October 15, but hope to get cars to enable them to resume operations by the 24th or 25th.

It is stated that the Missouri, Kansas & Texas has something over 4,000 loads blocked on their various sidetracks, and terminals between Denison and Muskogee, and railroad officials, for the first time in the history of the road, have requested mines to refrain from loading any coal for a period of one week, to enable them to clear up the accumulation of unbilled loads.

The shutting down of the mines for the past week has cost the operators the production of at least 1,000 cars of coal, for which the demand at this time is very great.

BRIDGE RAILING GAVE WAY

And Horse and Buggy Fell a Distance of Twenty Feet.

Mrs. John Waller met with quite a serious accident Tuesday. She was crossing the Keller bridge, in the northeastern portion of the county, in a single buggy, three children being with her, when her horse became frightened at a saw mill on the north side.

The horse began to back, when Mrs. Waller and the children jumped out, saving themselves from probable death.

The horse backed the buggy against the wooden railing, which gave way, letting the horse and buggy fall to the water, a distance of about twenty feet.

The horse was crippled, and the buggy badly broken. The bridge has one of the longest spans of any in the county.

ARRESTS ARE ENJOINED

JUDGE POLLOCK GRANTS THEATER MEN A RESTRAINING ORDER.

WILL HAVE A HEARING TOMORROW

The Marshal, Prosecutor, Police Commissioners and Chief Prohibited From Interfering With the Sunday Players.

Kansas City, Mo., Oct. 24.— On the application of the attorneys for theater managers, Judge John C. Pollock, of the federal court at Topeka, last night granted a temporary order restraining the city and county officials from arresting or interfering with the managers, actors, actresses, musicians, stage hands or other employes of the theters in Kansas City for giving Sunday performances.

The order is sweeping in effect and was made by Judge Pollock, acting for Judge John F. Philips, of the United States court for the Western district of Missouri. It is directed against the following officials; Andrew E. Thomas, clerk of the criminal court; Albert Heslip, county marshall; Mayor Henry M. Beardsley, A. E. Gallagher and Elliott M. Jones, members of the board of police commissioners; Daniel Ahern, chief of police, and Isaac B. Kimbrell, prosecuting attorney.

The order says that no warrants are to be issued, no arrests made, no prosecutions ordered or conducted, and that none of these officers or anyone under them, or anyone, clothed with any authority to make any arrests, issue warrants or conduct prosecutions, is to interfere or molest in any way any person connected with the theatrical profession in Kansas City, pending the final hearing of the case.

Judge Pollock set the hearing for the temporary injunction for 10 o'clock tomorrow morning in Judge Philip's court room.

BRYAN TO RUN, ALLEN SAYS

Brother-in-Law Makes Positive Announcement.

Omaha, Neb., Oct. 24.—In an interview here yesterday Thomas O. Allen, of Lincoln, William J. Bryan's brother-in-law, and chairman of the democratic state central committee, says positively that Bryan will be a candidate for the democratic presidential nomination next year, and "roasts" William R. Hearst, who, he declares, will get the nomination of his Independence league for the presidency and use that to try to force the democratic convention to nominate him.

"But Mr. Hearst will fail to get the democratic nomination," he said. "He has done nothing recently to endear him to the democrats of the nation."

ROOSEVELT IN WASHINGTON

President Pleased With Reception Throughout South.

Washington, Oct. 24.—President Roosevelt reached the White house from his southern trip yesterday afternoon at 4 o'clock, exactly on schedule.

Voigt, who now resides at Lexington, sold his farm of 160 acres, which lies two miles northeast of Hughesville, to John McClure, Monday, the consideration being $12,000, or $75 per acre, says the Houstonian. Our German or French brethren may be able to defeat us speeding through space in a balloon race, but when it comes to things on earth that's where your Uncle Samuel shines.

The Nevada Mail has been changed from a blanket sheet folio of nine columns to a six-column quarto, thus improving the appearance greatly. Editor Bean is to be congratulated, and so, too, are his readers and advertisers.

The leaves are falling, and "smudges" are in order. The smell and smoke from the average Sedalia "smudge" are something awful. Don't apply the match until your neighbor has retired at night. If in the morning, get busy before the people in your locality have risen. Have some regard for others. Try it once.

The Roach-Shoels fight takes place in Pueblo tonight. These exhibitions are not very elevating, doing nothing for the upbuilding of society, but as the laws of the Centennial state do not prohibit them, here's hoping the son of an honored Sedalia sire may win, and that, too, without the semblance of a "fluke."

Blessed are the poor in these days when millionaires are doing the whale-Jonah act, when financial institutions with millions upon millions on deposit are forced to close their doors, and when call money is loaning at 40 per cent in the beehive where the Morgans, the Harrimans and others of their ilk do not do unto others as they would be done by.

With Messrs. Cowherd, Reed, Crow, Vandiver, Clark, Mosby, Whitecotton, Staples and others, surely the Missouri democracy is well equipped with gubernatorial timber. The race for the nomination, which is equivalent to election, may be spirited; but when it is over a united democracy will be found opposing the republican ticket, and that means that the "accident" of 1904 will not be repeated.

The season for conflagrations is at hand, and an ounce of preventive is worth a pound of cure. To this end wouldn't it be wise to spend a dollar or two having all of the flues at your homes and places of business cleaned? The suggestion costs nothing, nor is there any law compelling you to act upon it, but no doubt Fire Chief Willis will tell you the idea is not a bad one.

When Dr. E. A. Wood established Maywood hospital he gave to the city an institution of which every Sedalian who knows of its good work is proud. It has been a splendid success, because it deserved to be. Its best advertisers are the people who have been patients. With Maywood, the M., K. & T. and the City hospital, truly is the city well equipped in this regard.

The editor of Rosa Pearle's Paper is not the only person who noted and commented upon the cleanly condition of the paved streets of Sedalia the week of the state fair. It was pleasing work that was well done. But why confine it to one week a year? Why not say that cleanliness is a necessity, and extend it through the fifty-two weeks of the year? Money thus expended is wisely spent, and surely Sedalia can afford it—even if she has to curtail in the matter of steam rollers and other "luxuries."

Why a good, able-bodied man should desire a position on the police force, working twelve hours a day, one-half of the time at night, for sixty dollars a month, when there is such a demand for labor in all branches, working eight, nine and ten hours with one's nights at home, is almost beyond comprehension. And yet in Sedalia no sooner it is known that a policeman has resigned than a dozen men file applications to succeed him.

As has been remarked times without number, Sedalia is the Convention City of Missouri. Week before last, during the state fair, we had two or more conventions, merely as side issues. Last week we had nearly 200 ladies here attending a three-state missionary convention. Today we have the ladies of the Women's Relief Corps of this district, and to them the Democrat-Sentinel bids welcome. Truly all roads point to Sedalia, and Sedalians have a welcome for all strangers who come within her gates.

Patience a little longer, good people, in the hope that the asphalt streets will yet be repaired before cold weather stops the work. The council has done its part, and the contract for the labor has been awarded, but Contractor Brown has been delayed in getting the necessary asphalt, owing to so many orders being in ahead of his. Hereafter, however, let's start on business of this kind in the spring and not wait almost until the coming of Jack Frost before awarding the contract. The summer season is when work of this kind should be done instead of waiting for winter.

No doubt much of the criticism of the Missouri Pacific and its management is undeserved. The manager of the Democrat-Sentinel recently traveled extensively through the east, clear up into the New England states, and he desires to go on record with the statement that at no point or any other railway did he find smoother riding than on the main line of the Missouri Pacific from Sedalia to St. Louis, nor was the equipment better in a single particular, but often inferior. Some of the branch lines of the Missouri Pacific may be a little "off" and need looking after, but the main line is in fine condition without question.

Experience has demonstrated that October is the proper month for holding the Missouri state fair. It has also demonstrated that Sedalia has much to do before the meeting in 1908. Shortage of hotel accommodations and poor transportation facilities to and from the ground have brought forth much criticism of Sedalia and Sedalians, even in the columns of papers whose editors are our friends. They have pointed out our shortcomings in the expectation that we will remedy them before the eighth annual fair is held, however, and it is now up to us to do the rest. Are we equal to the emergency? This paper feels confident we are; but do not let us wait until next August or September before we set about to remedy the evils complained of by our friends. Now is the time to start.

THE SUICIDE OF AN ELK

HE WENT TO THE ORDER'S CLUB HOUSE AND SENT BULLET INTO HIS BRAIN.

LEAVES WIDOW AND FOUR CHILDREN

Left a Note Requesting That His Remains Be Sent to an Undertaker's Instead of to the Family Residence.

Wheeling, W. Va., Oct. 24.—J. Frank Adams, secretary of the Reyman Brewing Co., of this city, committed suicide by sending a bullet through his brain in a bath room of the Elks' club house.

Adams a few minutes before the tragedy left some friends near the court house and bade them good by. He was secretary of the Elks' club and when re-elected to that office on last Thursday read his financial statement, making a fine showing of the conditions.

A rumor is curret that Adams was heavily involved financially. He came here from Cleveland about nine years ago as a telegraph operator.

In a short time he was made secretary of the Board of Trade, then auditor of the Reyman Brewing Co., and later promoted to a more responsible position. He was also a city councilman for four years. He leaves a widow and four young children.

Adams left a note addressed to the manager of the Elks' club, requesting that his remains be turned over to an undertaking parlor, and not sent home, and that the funeral take place from the Elks' club.

BURGLAR SHOT IN THE EAR

Returns to Demand Damages, and Is Now in a Cell.

Cleveland, Ohio, Oct. 24.—Because he returned to the house, in which he was shot in the ear when in the act of lunching after rifling it, to demand damages of the owner, Frank Provock now finds himself behind bars, charged with burglary and larceny.

After filling a bag with silver and other valuables Provock sat down to eat cold meats and other food in the home of Paul J. Beitt, 812 Jefferson avenue.

Beitt returned to find the stranger at his board. The burglar blew out the lone lamp, but Beitt fired in the darkness. Three hours later Beitt, aroused by a persistent rapping at the door, faced the man who had escaped.

"You've got to pay me for wounding my ear," the visitor said.

"Well, you've got nerve," said Beitt.

The man ran, but Beitt and a policeman caught him and he was locked up.

$1,500 ON "DUMMY" BILLS

Later Ellis Returned to Indiana and Was Sentenced.

Goshen, Ind., Oct. 24.—George W. Ellis, for eighteen years superintendent of the Elkhart county schools, pleaded guilty to having stolen $1,500 of county funds through presenting dummy supply bills to the county auditor and collecting the money.

He was sentenced to Michigan City prison for from one to fourteen years, fined $1,500 and disfranchised for five years. Ellis was at once taken to prison.

After the expose of his theft two weeks ago he fled to Napoleon, Ohio, his old home, but returned here and voluntarily gave himself up to the sheriff.

Ellis served without bond and the county will lose the $1,500 he stole. His family is prominently connected here socially.

PETTY HAD $9,870 SALE

IT WAS ONE OF THE BEST HELD IN PETTIS COUNTY THE PRESENT SEASON.

THE ATTENDANCE WAS VERY LARGE

There Was No Trash to Sell, and Those Present Got Down to Business, Paying Good Prices for All Offerings.

Walter Petty held a closing out stock sale on his farm, one mile southwest of Sedalia, yesterday, which proved to be one of the largest and most successful stock sales held in the county this season.

Nearly 450 head of stock, including horses, mules, cattle and hogs, were disposed of at good and satisfactory prices. It was his fifth annual sale, and the same large crowd of buyers who usually attend his sales were there, nearly all of whom proved bidders and buyers.

There was an absence of the usual yardful of skillet lids, pot hooks and trace chains to be disposed of, and as soon as the crowd assembled the stock sale was opened.

The first offering was twenty head of 2-year-old steers, which sold to James Farris, of Rodelia, for $40 each; sixteen head of yearling steers sold to Robert Warren, of Sedalia, for $27.10 each; another bunch of twenty-two head of yearling steers went to J. A. Heck, of Sedalia, for $24.80 each; twenty head of 2-year-old steers were secured by James Farris, of Rodelia, for $35, and the same bidder got another bunch of twenty head of the same age for $36.60.

Twenty head of bull calves went to Clem Mahan, of Green Ridge, for $16.75; Isaac Warren, of Sedalia, got another bunch of twenty head for $16.10; a bunch of seven head of steer calves sold to Robert Warren for $19.20; a good number of milch cows sold at prices ranging from $20.50 to $45.

After lunch, which was served by the Walch Catering Co., of which all partook with a keen appetite, the hosre sale was on.

A 6-year-old saaddle and harness horse went to B. J. Curran, of Sedalia, for $197.50; a 6-year-old horse went to E. B. Elliott for $110; a sorrel mare was secured by John Menefee for $198; a black mare went to Frank Kaler, of Sedalia, for $252.50; a 9-year-old horse went to Henry Shafer for $100; a 4-year-old sold for $130, and other horse stock on down the line.

A pair of 3-year-old mules was secured by J. R. Hampton, of Sedalia, for $250; a 3-year-old mule sold to John Bouldin for $155; another for $141; still another for $131; a 4-year-old mule brought $151; another $149, and a good number of 2-year-old mules sold at prices ranging from $100 to $136.

One hundred and eighty head of stock hogs, ranging in weight from 90 to 150 pounds, sold in bunches and brought from 6 to 8 cents per pound.

Cols. C. J. and Kemp Hieronymus and Col. C. N. Henry conducted the sale, and while it was a big day's work it was finished with perfect satisfaction to the proprietor.

Col. L. K. Meyers, the expert sale clerk, of Windsor, who has a perfect system of keeping sale books, which enables him to give at any time the standing of the sales within ten minutes after the last head had been sold, and the sale closed, gave the aggregate of the sale at $9,870.

HON. WILLIAM J. BRYAN

SAYS THE PUBLIC SHOULD HAVE ALL THE FACTS IN A LABOR CONTROVERSY.

OUGHT TO SETTLE BY ARBITRATION

The Distinguished Nebraskan, in an Address to Striking Telegraphers, Expresses Sympathy With Cause.

New York, Oct. 24.—Advocating the establishment of state and national boards of arbitration for the adjustment of differences between labor and capital, and denouncing monopoly of the necessities of life, William Jennings Bryan, in a mass meeting of the striking telegraphers in Clinton hall, was received with enthusiastic applause, and at the close of his address received a rising vote of thanks. Mr. Bryan said in part:

"Your conflict with your employers will impress on the public the evils of monopoly. I am sorry that you must pay for the lesson taught in the interest of the public.

"The conditions brought about by the conflicts between great corporations and their employers makes a new law necessary. There should be a law providing for a tribunal of arbitration. I believe arbitration is the only means of settling the differences between labor and capital. I am a strong advocate of voluntary arbitration.

"The general public always has a strong sense of justice. Have boards of arbitration, and let the public know the facts. Through publicity the public opinion will become so strong as to bring about arbitration.

"In this great controversy there is a third party—80,000,000 people whose business is affected by this strike. We have a right to say that here must be a tribunal to say that justice should be done.

"Is it right that the laboring man should be compelled to starve his wife and children while he fights for justice? It is not in keeping with civilization that the working masses should be compelled to resort to the weapon of the strike.

"A strike is injurious, no matter what its outcome may be, always leaving a bad feeling behind it when it is over. Labor and capital ought to be harmonious. Arbitration is the only way in which differences can be settled."

Mr. Bryan also declared his opposition to government by injunction.

Great International Contest.

New York, Oct. 24.—The great international balloon contest for the James Gordon Bennett cup ended yesterday with the German, the Pommern, and the French, Isle de France cars, two out of the nine starters, so equally divided for honors, that it will be necessary to await a decision from the war department at Washington to tell who wins. Oscar Erbsloeh and Henry H. Clayton, skippers of the Pommern, landed their craft at 8:55 o'clock yesterday morning half a mile south of Asbury park.

The Isle de France, with A. Le Blanc and E. W. Mix at the valves, swooped down finally at Herbertsville, Ocean county, N. J., four hours later. It was said at the Aero club last night that each had covered approximately between 880 and 890 miles. An officer of that organization said it was his personal opinion that the Pommern would win by a matter of a few miles.

The Pommern and the Isle de France shattered the record of 870 miles as the crow flies from St. Louis to Henderson, N. Y., made in 1859.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of—Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

They beat the distance covered by Lieut. Frank P. Lahm, United States army, who won the international long-distance race from Paris in 1906. The American officer landed at Fylingdale, England, 402 miles from the starting place. The record of Count de la Vaulx, in 1900, of 1183 miles, stands unbeaten.

Superintendent of Life-Savers Havens at Sandy Hook was the first to report the landing of the French balloon, Isle de France, at Herbertsville, northwest of Point Pleasant, N. J. It had landed at 1:10 o'clock yesterday afternoon, but a report was not received until night.

A farmer assisted Le Blanc and Mix in carting their balloon to Lakewood from the field in which they landed, and the men lost no time in taking the first train for New York. They were too tired to even cross the ftrry, and spent the night sleeping in a Jersey City hostelry. These men were in the air fifty-one hours.

The Races in St. Louis.

St. Lous, Mo., Oct. 24.—With the completion of the dirigible balloon race and the awarding of the prizes to the winers yesterday afternoon St. Louis great balloon tournament, conceded to have been the greatest in the history of aeronautics, came to an end amid the plaudits of over 40,000 people and the strains of martial music. President L. D. Dozier, members of the St. Louis Aero club, and its directors, were receiving the unstinted praise of the visiting members of the Aero Club of America last night over the splendid success of the event.

Lincoln Beochey, of Toledo, won over his old trainer, Capt. Thomas S Baldwin, yesterday afternoon by a margin of 2 minutes and 25 seconds in a two-mile race around Blair monument and back to the balloon grounds. He beat Jack Dallas, of Toledo, by a margin of 1 minute and 30 seconds. Beachey, on his third trial, having waived the second, made the trip around the course in 4 minutes and 40 seconds. He flew the Beachey, one of the Strobel airships. Jack Dallas covered thedistance in the Dallas airship, a Strobel machine also, in 6 minutes and 10 seconds. Capt. Baldwin, on his third trial, made the trip in 7 minutes and 5 seconds.

After the close of the event the contest committee, composed of Albert Bond Lambert, G. Herbert Walker and Samuel H. Valentine, of New York, former Gov. D. R. Francis and President L. D. Dozier, met at the Aero club headquarters, heard the report of Eugene Cuendet, patrol judge at Blair mounment, Forest park, and awarded the three cash prizes. Beachey was awarded first prize, $1,500; Dallas the second, $750; Capt. Baldwin third, $2.50.

Only four of the seven entries materialized. E. Jorgensen, of Chicago; John Berry, St. Louis, and S. H. Curtiss did not fly.

The Baydofer-Yeager airship, The Comet, operated by Horace B. Wild, of Chicago, who made a flight from Forest Park Highlands last year, broke down in the air and the machine drifted back over the heads of the crowd and fell in the park south of the enclosure. Late in the afternoon Wild sailed back to the ground, but too late to make further trial.

Chicago, Ill., Oct. 24.—Garfield Hughes, a mail carrier, emptied his sack of letters into the street and then used the pouch to save a woman's life.

Mrs. Frances Burr was working over a gas stove in her kitchen when her clothing caught fire. She rushed into the street, a mass of flames.

Hughes was passing the house with a sack full of mail. Quickly dumping the letters into the street he ran to the woman, threw her to the sidewalk and drew the mail sack over her body, extinguishing the flames. The woman is in the Engiewood hospital, seriously burned.

RHEUMATISM CAN NOT BE RUBBED AWAY

Rubbing with liniments, blistering the affected parts, the application of plasters, and other means of external treatment, are usually helpful in relieving the pains and aches of Rheumatism, but such remedies do not reach the CAUSE of the disease, and are therefore in no sense curative. Rheumatism is due to an excess of uric acid in the blood, brought about by indigestion, poor bowel action, weak kidneys, and a general sluggish condition of th system. The circulation deposits this irritating poison in the different muscles, nerves, tissues and joints of the body, and soon the painful symptoms of Rheumatism are produced. The pains at first may be wandering and slight; but as the blood becomes more fully saturated with the uric acid poison, the disease grows worse and after awhile gets to be chronic. The slight, wandering pains now become sharp and cutting at the least exposure to dampness or night air, or any constitutional irregularity, the bones ache, the muscles are not as free in action as before, and where the acid poison is allowed to remain in the blood the joints often become so clogged with corrosive substances that they are left permanently stiff and useless. Rheumatism can never be rubbed away, nor can it be conquered and driven from the system until the acid-laden blood has been cleansed and purified. No other medicine does this so effectually as S. S. S. It dissolves and removes the impurities and sends a stream of rich, strong blood to the affected parts, which soothes the irritated nerves, inflamed muscles and flesh, and the sufferer obtains relief that is permanent because the real cause of the disease has been removed. Special book on Rheumatism and any medical advice desired free.

FIVE MILE LAW IS VALID

THIS WAS DECISION OF JUDGE W. N. EVANS AT COLUMBIA WEDNESDAY.

CASE IS WATCHED WITH INTEREST

Missouri University Dramshop Keeper Will Appeal to Supreme Court —Hinges on a Word of Three Letters, "Now."

Columbia, Mo., Oct. 24.—Judge W. N. Evans, in the circuit court here yesterday, held the "five-mile" law to be constitutional.

The law provides that no license shall be granted to any person to keep a dramshop within five miles of any state educationa l institution which "now" has enrolled 1,500 or more students.

This law was passed at the last special session of the legislature. The university is the only state educational institution that has 1,500 studnts, and the law consequently applies only to Columbia and the surrounding territory.

In August Carl Kehr filed a suitable petition and asked for a license in Columbia, but was refused by the county court on the ground that it was forbidden by the "five-mile" law.

Kehr's attorney brought the matter into the circuit court through a writ of mandamus compelling the county court to show why the license had not been granted.

When the county court pleaded the "five-mile" law, Kehr demurred, and asked the circuit court to order the county court to issue the license.

Kehr's attorney held that the law was unconstitutional in that it was a special local law, for the word "now" in the law prohibited the law from ever applying to any other state educational institution.

Kehr will take the case to the supreme court. The whole contention was based upon the word "now."

ADVICE TO RHEUMATICS

Noted Physician Tells How to Prevent and Cure Rheumatism, Kidney and Bladder Troubles.

(By Geo. Edmund Flood, M. D.)

If you would avoid Rheumatism, Kidney and Bladder Troubles, be moderate in the consumption of heavy, rich foods, substitute as far as possible soups, broths, fresh milk, and drink water—lots of water. Take plenty of time to eat, and don't eat after you have had enough, even if it does taste good. If your work is confining, take a moderate amount of exercise each day in the open air.

Of course, neither diet, water, rest, nor exercise will cure these afflictions. I advise them as preventives only. For the benefit of readers of this article who are now afflicted with Rheumatism, Kidney, Bladder or Urinary Trouble, and desire to be cured quickly, I give below, complete in every detail, the famous prescription which has made me so successful in the treatment of these diseases. It is the most certain cure that I have ever used. It is pleasant to take, it is not expensive, can be filled by any druggist, and I believe it is the greatest prescription for Rheumatism, Kidney and Bladder Troubles ever written. If you are a sufferer, save this, take it to your druggist and have it filled, or, better still, get the ingredients yourself and mix them at home by shaking them in a bottle.

Fluid Extract Cascara Aromatic ..... ½ ounce
Concentrated Barkola Compound ..... 1 ounce
Aromatic Elixir ..... 4 ounces

Adult dose, take one teaspoonful after meals and at bedtime; children, one-fourth to one-half teaspoonful after meals.

After you are cured follow the advice I have given you in regard to diet, exercise and water, and you will not need the services of a physician again for these ailments.

NEW SEDALIA THEATER.

Williams & Walker.

"Bandana Land," the latest musical show of which Williams & Walker are the stars, and a large company of associate players, will be the attraction at the Sedalia theater on Saturday night. The piece will give the theater-going public of Sedalia an opportunity of seeing what colored folks can do in the way of producing as elaborate a musical comedy as was ever presented in this city before. "Bandana Land" was written, staged and is played entirely by negroes, and the scenes and situations are drawn from our native soil—the "Old Folks at Home"—in and around tAlanta, Ga.

Land of Nod.

The Rork company's beautiful production of the extravaganza, "The Land of Nod," will occupy the stage of the Sedalia theater Tuesday night, Oct. 29. This is a production whose novelty of character drawing and stage furnishment distinguishes it among its contemporaries. No such personages have ever before been introduced into a stage work, and they have been so skillfully arranged that any suggestion of artificiality has been overcome. "The Man in the Moon" and his wife, "Rory Bory Alice," "The Sand Man,"

KNOX WILSON,
As "April Fool," in "The Land of Nod."

"The Weather Man," "April Fool," "The Welsh Rarebit," "The Jack of Hearts" and his parents, "The King and Queen of Hearts," have been brought into rational juxtaposition. They have been plentifully supplied with things to do which make them extremely interesting people. The comedy in "The Land of Nod" is of the spirited, wholesome kind which compels immediate laughter, and the music is all of the popular sort which is enjoyed by all classes. The production as to scenery, costumes and other effects is massive and beautiful and the ensemble generally is unusually complte and effective.

AT WOOD'S OPERA HOUSE.

The Belle Rosa Green Stock company will be at Wood's opera house the balance of this week. There will be a special ladies' and children's matinee Saturday. These everybody's matinees are growing very popular with th people. The play tonight, "My Little Pard."

The Best Ever.

Since the first performance of the "Two Orphans" in this country public interest has been constant and all the millions who have seen the real play, that is the drama as presented by Kate Claxton, are so many lifelong admirers of this masterpiece. It is this authorized version, obtained by Manager G. Conrad, that is to be seen here at Wood's opera house Sunday, Oct. 27. The power of this play is equalled only by the genius shown in the selection, contrasting and development of characters. It holds the audience fast from start to finish. The theme of the two orphans alone and at the mercy of human wolves in the great city grips without interruption. Mr. Conrad announces a company of unusually experienced players with especial equipment of scenery, costumes and other details.

New York, Oct. 24—Employes of the Western Union company who have been loyal throughout the strike have been notified that the new wage scale is now in effect.

First class operators received an advance from $19.80 to $21 a week and the overtime scale is advanced in proportion.

Superintendent Brooks said that the reports received yesterday showed that seventeen more strikers had returned to work in the Eastern district, nine in the Southern district and twenty-eight in the Western district.

There were seven more applications for work which had not been passed on.

THE "WIRELESS" EXPERT

VOICE WAS RECENTLY STILLED BY REASON OF AN ELECTRIC SHOCK.

RESTORED AFTER SEVERAL DAYS

The Victim Believed That a Counter Shock Would Produce the Desired Result and So It Proved.

Boston, Mass., Oct. 24.—Robert L. Mortimer, chief electrician in charge of the wireless station at the Charlestown navy yard, can talk again.

Mortimer lost the power of articulation through a shock received a week ago Sunday at the station.

Dr. Belknap, of the receiving ship Wabash, had several prominent specialists confer on the case, and a scientific effort was made to cause the return of the power of speech.

Mortimer personally believed that counter shock would produce the desired result. The doctors agreed that it would, but believed that it would have to be an unexpected or accidental one to produce the desired results.

Yesterday they were experimenting and Mortimer received a shock unexpectedly. It was so powerful that it floored him, almost knocking him senseless. When he was fully revived his power of spech had returned.

Today he is about the navy yard as happy as a lark and most voluble in his efforts to return all the good wishes and congratulations showered upon him, and to prove that he can talk as well as ever. He says that it seems "funny," however, after several days of rest from speaking.

LEARN TO EAT

Few People in Sedalia Really Know How.

Slow eating will solve one-half the problem of ill health. Those who suffer already with indigestion and weak stomach can with care and the use of Mi-o-na stomach tablets restore their digestion to a healthy condition, so that they can eat what they want at any time without fear of distress or suffering.

After a few days' use of Mi-o-na stomach tablets, the headache, dizzy feeling, drowsiness, bad taste in the mouth, coated tongue, nervousness, sleeplessness, distress after eating—all these symptoms of a weak stomach—will disappear, and perfect digestion and a good skin will show that the vital machinery is once more running smoothly.

Take a little Mi-o-na tablet before each meal so that it will stimulate the digestive juices and give strength to the stomach, and then it will take care of the food that is eaten, without indigestion and the unpleasant full feeling with which so many suffer after meals.

W. E. Bard Drug Co. have so much confidence in the power of Mi-o-na to cure indigestion and all stomach ills that they give a guarantee with every 50-cent box to refund the money if the remedy fails to give satisfaction.

ATTACKED TRAIN CREW

After Three of Their Countrymen Had Been Killed.

Versailles, Ohio, Oct. 24.—During a fog here east-bound passenger train No. 36 on the Big Four collided with a handcar carrying a gang of Greeks about one mile west of here, killing three and injuring a number of others.

Upon realizing the extent of the accident the infuriated foreigners attacked the train crew with stillettos, and for a while it looked as though a bloody battle was inevitable, but a plucky brakeman brought into play a gun, and with the assistance of the engineer and fireman with picks and shovels the war cloud was dispersed.

Near the station a number of Greeks were at work, and, fearing further trouble, the police were called to guard the train while the exchange of passengers and baggage was made.

NURSE PROVES A HEROINE

Night Fire at Hospital Imperiled Lives of Thirty Children.

Indianapolis, Ind., Oct. 24.—Miss Emma Davis, night nurse at the Eleanor hospital, proved herself a heroine Tuesday midnight, when she fought he way through flames and smoke and saved three other nurses from possible death by fire, and then aided in the resue of thirty children. The presence of mind displayed by Miss Davis when the building was seen to be burning astounded the men who aided in the resue of the babes.

Miss Davis, in her efforts to rescue the other nurses and look after the safety of the little ones in her charge, worked until she was overcome by smoke and was found on the second floor by Patrolmen Condell and Johnson in an unconscious condition.

ECZEMA ONLY SKIN DEEP.

Proven by Records Now on Display at the W. E. Bard Drug Store.

The old theory that skin disease was caused by bad blood or a disordered internal system has been proven a false one. It is now well known among up-to-date skin specialists that skin disease is caused by a germ in the skin and that this germ must be killed by local treatment.

Mr. W. E. Bard, the druggist, has in his possession hundreds of letters from persons formerly suffering from eczema, psoraisis, salt rheum and other diseases of the skin. He also has pictures of men, women and children showing the skin diseased, cracked and bleeding, while a few months later it is clean, soft and smooth with every trace of the disease wiped out. All these cures were made by a local external application of D. D. D. Prescription, a remedy that instantly stops all itch and quickly kills the disease germ, effecting a permanent, positive cure.

Here is a sample letter from J. Dalton, Wilderness, Mo.: "I have used the bottle of medicine you sent me and am now a well man. Please accept my heartfelt thanks. Your remedy cannot be praised too much.

Every sufferer of skin diseases can see such letters by calling at the W. E. Bard Drug Co.'s drug store, and also secure without charge a book on the cause and cure of skin diseases.

Dividend No 57, 2½ per cent on 778,175 shares of stock outstanding, payable July 20, 1907	1,945,437.50	3,890,875.00
Surplus from the year's operations		$ 3,807,228.09

An arrangement made to extend until July 1, 1938, the third mortgage 7 per cent bonds of the Missouri Pacific Railway company, maturing November 1, 1906, and outstanding in the par amount of $3,828,000, the interest during the extended period will be at the rate of 4 per cent per annum, thus effecting a yearly saving in the inferest charges of $114,840.

Contracts were entered into during the year with the Missouri Pacific Equipment association, whereby fifty locomotives were purchased at a cost of $750,750, and with the Iron Mountain car trust, whereby eighty-five locomotives were purchased at a cost of $1,075,000. Payments for these are to be made in annual installments, extending to December 1, 1916.

On April 15, 1907, the Missouri Pacific Railway company entered into an agreement with the Knickerbocker Trust company of New York, whereby it purchased 3,000 coal, 750 ballast and 750 stock cars at a cost of $3,730,350, of which amount $380,350 was paid. The balance is to be paid in ten annual installments of $335,000 each, on May 1 of each year, 1908 to 1917, inclusive. Equipment trust gold bonds, dated May 1, 1907, with coupons attached bearing interest at 5 per cent, were issued to cover this purchase.

On June 1, 1907, the St. Louis, Iron Mountain and Southern Railway company entered into an agreement with the Mercantile Trust company of New York to purchase 4,500 box cars at a cost of $4,065,300, of which amount $405,300 is to be paid on delivery of the equipment. The balance is to be paid in ten annual installments at $366,000 each on June 1 of each year, 1908 to 1917, inclusive, and is covered by equipment gold bonds, dated June 1, 1907, with coupons attached bearing interest at 5 per cent.

President Gould's Statement.

President George Gould says:

The gross earnings from operation for the year increased $4,136,521.33. While the passenger business for the year shows an increase of $924,922.64, the marked general prosperity in the territory traversed by your lines of railway would have contributed a larger increase to the revenue from passenger traffic, had it not been for the 2-cent per mile passenger legislation enacted early this year by the states of Illinois, Missouri, Arkansas, Kansas and Nebraska, through which your lines of railway run. This low rate, by its application to state business, affects the interstate business as well, and its effects are far reaching. With the limited volume of local travel in those states, a 22-cent rate is not deemed compensatory for the service rendered.

Adverse legislation in Arkansas, Missouri and Kansas, affecting train and station operations, coupled with the general advance in wages of employes and the increased cost of materials and supplies, tend to enlarge cost of operation. Freight rates on certain commodities were reduced in Arkansas, Missouri, Kansas and Nebraska by legislative act and orders of state railroad commissioners, which will have the effect of limiting net revenues. Litigation is now pending in the courts to test the validity of these enactments and orders.

Railroads cannot meet the requirements of the public so long as the adverse wave of sentiment now prevalent throughout the land is directed against them and given concrete expression in the form of drastic laws, which increase their expenses, reduce their revenues, and render them incapable of improving their service and enlarging their facilities. It is essential to the industrial progress of the country that the transportation facilities shall not only be maintained, but improved and enlarged. To accomplish this, the railways must receive remunerative returns for the services rendered. In this way only can they maintain their credit and that degree of confidence in the financial world that will enable them to command capital for additional facilities to meet the increasing requirements of the great business development now taking place throughout the country. Time will surely show that it is only through fair and reasonable treatment by the state that the railways will be enabled to best subserve the public interest.

At the date of this report the crop prospects and the outlook for general business for the ensuing year are very promising.

Thomas A. Edison, the great American inventor, says: "Fully 80 per cent of the illness of mankind comes from eating improper food or too much food; people are inclined to over indulge themselves." This is where indigestion finds it beginning in nearly every case. The stomach can do just so much work and no more, and when you overload it, or when you eat the wrong kind of food, the digestive organs cannot possibly do the work demanded of them. It is at such times that the stomach needs help; it demands help, and warns you by headaches, belching, sour stomach, nausea and indigestion. You should attend to this at once by taking something that will actually do the work for the combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by Arlington pharmacy.

Kidney Diseases Are Too Dangerous for Sedalia People to Neglect.

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Sedalia.

G. S. Dawson, living at 212 Saline street, Sedalia, Mo., says: "For relieving backache and other pains arising from a disordered condition of the kidneys, I can certainly highly recommend Doan's Kidney Pills. In my estimation they have no equal. I suffered so badly with lameness across the small of my back that when I stooped or lifted anything sharp twinges of pain would dart through me. I was advised to use Doan's Kidney Pills and went to W. E. Bard Drug Co.'s store to get a box. After taking only a few doses I felt better and in a short time all symptoms of lameness in my back and kidney trouble disappeared."

THE WOMAN FELL DEAD

As Her Hand Was Raised to Protect Her Husband.

Detroit, Mich., Oct. 24.—Mrs. Bertha Watson fell dead from fright when her husband was attacked by another man, who declared that Watson had made disparaging remarks about a relative.

The Watsons were in the kitchen of their home, at 607 Wheelock avenue, when Frank Rivett, who resides across the street, entered.

With an oath he sprang upon Watson. Mrs. Watson uttered a cry of terror, raised her hand to prevent Rivett from striking her husband and fell dead.

The quarrel was instantly forgotten and both sprang to raise the woman to her feet. A cursory examination revealed that she was dead.

Mrs. Rivett and Mrs. Watson had been friends for years. The quarrel between the two men had been one of long standing.

A "ROAR" FROM AN EDITOR

He has Something to Say in Regard to the State Fair.

We issued the Times one day earlier than usual last week and stated in big black type that we had gone to the fair, says the Leeton Times. Well, we would have been off but for the blarsted Katy train, which was truly off—that is, it was off the track somewhere out in Kansas.

We were accused of prevarication and also asked ninety-nine times, "How's the fair?" This was more than our nerves could stand, so we decided to catch the first train out, and through the courtesy of Conductor Wilson we were enabled to reach the Queen City at 10 p. m. Thursday night.

The fair was up to the standard for such institutions. The exhibits were good in their entirety. The track was in fine condition and some good races were pulled off.

Extortion was practiced to a certain extent, but was no worse than could be expected. One thing we looked on with disfavor, however, and this was the way in which the people were driven from the amphitheater after they had paid their admission and gained access to same. 'Tis true a few seats were provided free, but not enough to accommodate one-tenth of the people who attended. If the great state of Missouri, with her wealth, cannot furnish a place of refuge for the tired and worn bodies of those who attend, without charging an additional 25 cents, then we are in favor of taking up a public subscription and donating it for this purpose. Shame on the management. The matter should have been looked after before the commencement of the fair.

TRUST COMPANY OF AMERICA IN NEW YORK IN ALSO HAVING TROUBLE.

SECRETARY CORTELYOU ON SCENE

The Alarm of Yesterday Has Subsided and Better Conditions Prevail in the Financial District Today.

New York, Oct. 23.—Anxiety over the financial situation here continued today, although the presence of Secretary of the Treasury Cortelyou lessened the alarm felt yesterday. The most unfavorable news of the night was the information that the Trust Company of America, one of the city's largest financial institutions, with deposits of fifty millions, had asked for and received assistance from other banks. President Thome, of this company, announced that they had plenty of cash and were prepared for any emergency.

Lines of people appeared early before the offies of both the Trust Company of America and the Knickerbocker Trust company, and those around the Knickerbocker offices were disappointed when it was announced that that concern would not re-open today. It became known that bankers generally do not regard the Knickerbocker position as very favorable, and were inclined to permit it to go into liquidation.

The opening of the stock market gave fresh evidences of demoralization, several stocks declining very heavily.

In Charge of Examiners.

New York, Oct. 23.—Acting State Superintendent of Banks Skinner took possession of the Knickerbocker Trust company this morning and a bank examiner is in charge of each branch office. The bank examiners announce that the conditions at all the other banks and trust companies, except the Knickerbocker and the Trust Company of America, are normal.

Money Rate Goes Up.

New York, Oct. 23.—Call money opened this morning at forty per cent and at noon it was lending at seventy.

SMASHED A CAR WINDOW

Two Negroes Were Jailed at Warrensburg Monday.

As the local passenger from Kansas City arrived Saturday night, a rock was thrown through a window in the chair car, barely missing the heads of some of the passengers, says the Warrensburg Star.

Marshal Ryan and Night Watchman Basham nabbed a bunch of negroes down the track and after a thorough "sweating" Luther Washington and Will Cushenberry confessed to the stardly act.

They were tried before Justice Gunn Monday morning and given twenty days each in the county jail and a fine of $50 each for good measure.

Young Washington is a son of "Railroad Charley," who has an unenviable criminal record from his early start at devilment. Luther is a "chip off the old block" and he will outrival his father unless someone knocks his "block" off before he is too far along.

STRIKERS RETURN TO WORK

Men Reinstated by Telegraph Companies in St. Louis.

St. Louis, Oct. 23.—The Western Union officials here stated that two striking operators returned to work yesterday, and five came back Monday. They say that a total of thirty-five strikers have returned to work since the strike began.

At the Postal telegraph offiec it was stated that about 15 per cent of the local strikers had asked for reinstatement since the strike, and a number had been taken back

The diphtheria scare at Lamonte has subsided. Only one case exists there, and the quarantine will likely be raised this week.

Killed a Bald Eagle.

Mr. Peter Gerdts killede a bald eagle on the farm of Henry Brunckhorst last Friday afternoon. The eagle attempted to catch some of Mrs. Gerdts' fowls, when the farmer seized his shotgun and killed the eagle. It measured about six feet from tip to tip. Mr. Brunckhorst is having a large stock barn built on his farm, and has just completed a new house.

Taken Back to Chicago.

Angie Arata, the pickpocket, arrested here state fair week, was fined $66 and costs at Lexington for robbery. The fine was paid, and he was then taken to Chicago to answer the charge of having jumped a bond of $500.

TROUBLE IN PITTSBURG

STOCK EXCHANGE IN SMOKY CITY DID NOT OPEN THIS MORNINC.

THE WESTINGHOUSE COMPANIES HIT

Stock in These Industrial Concerns Went Down Many Points This Morning—A Receiver May Be Asked for

Pittsburg, Pa., Oct. 23.—The Stock Exchange did not open this morning, the members deeming it advisable that the exchange remain closed temoprarily, owing to the demoralized feeling in Westinghouse Electric stock, which declined 19% on the New York exchange this morning.

Later in the day the president of the exchange issued a statement, saying:

"The Security Investment Co. finds itself involved, and this will necessitate a temporary suspension or receivership for the Westinghouse Electric Co., the Westinghouse Machine Co. and the Nernst Lamp Co. The companies, however, are in an absolutely solvent condition."

The embarrassment is attributed to the inability to secure funds on account of the stringency in the money market. The amount involved runs into the millions.

WOMEN WERE INSULTED

By Two Men Who Wanted to Repair Carpet Sweepers.

(From Wednesday's Daily.)

Two police calls were sent in at the noon hour today, caused by two strangers insulting ladies. The first call was sent in by the wife of a Katy conductor residing at 414 East Seventh street.

According to the lady, two men, strangers, shabbily dressed, knocked at the door of her home and asked if she had a carpet sweeper that needed repairing. The lady said she had, and asked one of the men inside.

He said he charged $1 for doing the work, which is a very exorbitant sum. The mistress said under the circumstances she did not want the work done and dismissed the stranger.

He arose and started to leave, cursing several times in the lady's presence.

The man applied at the adjoining residence and treated the lady of the house in the same manner. A call for police was sent in, but the men left.

They were followed to West Fourth street and another call was sent in for the police, but this time no one answered, and no definite number was given.

TO HEAD OFF "DOPE" FIENDS

Secretary of the State Board of Health Visits Sedalia.

(From Tuesday's Daily.)

Dr. Atwood, secretary of the state board of health, was here yesterday from Kansas City investigating the report that a number of local doctors have been writing prescriptions for "dope" fiends to secure cocaine, morphine and the like, for ten, fifteen or twenty cents, or, in fact, for whatever the applicant desires to pay.

The price for writing prescriptions of this kind is set by the State Medical society, and the stopping of "reduced prices" for this kind of work is the purpose of Dr. Atwood's visit Dr. Atwood's visit.

THE RACE NEARLY OVER

BALLOONS ARE DROPPING DOWN ALL OVER THE EASTERN STATES TODAY.

THE CONTEST WILL BE CLOSE ONE

At Present the German Pommeron Seems to Have Lead With 880 Miles—All Previous Records Broken by Each.

St. Louis, Mo., Oct. 23.—With favorable weather conditions prevailing late this afternoon, the aeronautic carnival will be brought to a close with the race for dirigible balloons for a prize of $2,000. There will also be various aeroplane contests.

Balloons Are Landing.

St. Louis, Oct. 23.—Intense interest prevails here as the end of the big balloon race approaches. News of the landing of balloons is coming in fast, and all records for flight distances and duration have been broken by nearly every balloon in the race.

The German balloon Pommeron landed today at Asbury park, N. J., covering an airline distance of nearly 880 miles. The Pommeron, apparently, has held the lead. Another German contestant, the Dusseldorf, is apparently second, having landed near Dover, Dela., a distance, approximately, of 825 miles.

The American balloon St. Louis landed at Westminster, Md., 730 miles. The United States landed last night at Caledonia, Ont., 650 miles. The third American contestant, "America," with Chandler and McCoy in the basket is yet to be heard from. The English contestant, Lotus II, landed in Ohio, 375 miles away, having descended on account of the illness of one of the occupants. One balloon landed near Richmond, Va., today, after covering about 1,200 miles.

The contest for first honors is sure to be close. The Bennett cup is to be awarded to the balloon that covers the longest distance from St. Louis, measured in a direct line.

America Lands in Maryland

Baltimore, Md., Oct. 23.—The balloon America, with Chandler and McCoy, landed at 8 o'clock this morning at Patuzent, two miles from Annapolis Junction, Md., an estimated distance of 700 miles. There were no mishaps on the journey.

The German Balloon.

St. Louis, Oct. 23.—The German balloon Abercron landed at Prince William, Manassas county, Va., at 7:10 o'clock this morning.

The French Balloon.

Mineral, Va., Oct. 23.—The balloon Anjou (France) landed two miles east of here at 7:40 o'clock this morning, an estimated distance of 700 miles having been traversed.

A SURPRISE MARRIAGE

Dr. Chas. A. McNeil and Miss Anna Decker, of Syracuse.

(From Wednesday's Daily.)

Dr. Charles A. McNeil, one of the staff of surgeons at the M., K. & T. hospital in this city, and a brother of Dr. G. E. McNeil, and Miss Anna Decker, of Syracuse, were married at Tipton last night.

Dr. McNeil and bride will return here the latter part of the week and make their home in Southeast Sedalia, in the vicinity of the hospital.

The news of the nuptials was kept a profound secret by Dr. McNeil, who did not intimate to even intimate friends that he contemplated such a step, and when confronted with the question several days ago he merely laughed and said nothing.

Dr. McNeil is a young surgeon with brilliant prospects and every friend in this city will join in wishing him and his young bride all the joy and happiness of a long married life.

Captured $162 in Premiums.

Frank Rau, the gardener north of town, won $162 in premiums at the seventh annual state fair, which is certainly a creditable showing. He captured 31 blue ribbons, 23 red ribbons and four white ribbons. On twenty-five varieties of potatoes he won first prize, as he did on the Burpee special, while in the boys' corn contest he won second and third prizes.

Jury Stood Three to Three.

The case of the state against R. C. Dolph, charged with a violation of the Sunday law by selling a can of corn on August 4, was tried in Justice Leaming's court Tuesday afternoon, the jury standing three for conviction and three for acquittal. This is the second trial, besides continuances without number.

Made the Check Good.

John Hellenberger, a young farmer, who passed two worthless checks ofr $5 each on Henry R. Pehling October 9 and 11, was fined $1 and costs in each case by Judge Clark Tuesday, or a total of $37, after he had made good the checks cashed by Mr. Pehling.

WIFE IN THE WINE ROOM

HUSBAND FOUND HER THERE ON STOPPING FOR "DRAM" LAST NIGHT.

ANOTHER WOMAN WAS WITH HER

And Yet the General Public Thinks Sedalia Has No Wine Rooms Where Women Can Be "Catered" To.

(From Wednesday's Daily.)

A scene bordering on the sensational was enacted in the wine room of a down town saloon near the midnight hour last night. A well known man of this city spent the early part of the night searching for his wife, who left home with the ostensible intention of coming down town on business.

Her husband searched in vain for several hours, and when about to return home entered a saloon to get a drink.

To his surprise he found his wife, with another woman, seated in a wine room in the rear of the saloon.

The man immediately thrust his hand into his rear pocket, giving evidence of intending to pull a revolver.

The barkeeper and several occupants of the place rushed up to the man and forced him to leave the place, which he finally consented to do.

With the man out of the place, the barkeeper advised the female occupants to leave by a side door, which they did. Here the Democrat-Sentinel's informant lost out, for the trio started toward East Sedalia and were soon lost to view.

LONG TRIP BY WAGON

Went From Camden, New Jersey, to Denver, Colorado.

(Wednesday's Daily.)

Walter L. Angelo and wife, of Camden, New Jersey, accompanied by Ira M. Stults, a horse buyer and trader of Kansas, traveling in a wagon from Denver, Colo., back home, arrived here yesterday on their return trip. They will remain in Sedalia for several days, then continue their journey, expecting to land home safely next spring.

Mr. and Mrs. Angelo left Camden last April, principally for the latter's health, as the doctors said she was suffering from consumption. Outdoor life was advised by friends of the couple and they decided on the trip.

They have met with few accidents, but encountered cold weather in Colorado, and almost froze to death at certain points in the Centennial state.

Mrs. Angelo, who delights in telling of her experiences on the trip, seems to be the speaker of the trio, and relates many pleasant occurrences that befell the party since their departure from home.

They were recently married in New York. Holland claims to be a clerk at the Plaza hotel, New York.

THE LINE IS SAID TO NEED REPAIRS AT QUITE A NUMBER OF PLACES.

COMMISSIONER RYAN MADE REPORT

From Junction City to Parsons the Track Is Rough, but From Parsons to Paola It Is in First Class Condition.

Topeka, Oct. 23.—Frank J. Ryan, member of the board of railroad commissioners, made his report of the inspection of the Missouri, Kansas & Texas railroad from Junction City to the south line of the state yesterday. Along the branch line from Junction City to Parsons the commissioner found many pieces of bad track. The track was generally rough, due in the most part to bad ties and broken angle bars.

The rails and ties were found to be in bad condition at several points and for considerable distances, and in many points ballast is recommended.

From Piqua to Parsons the track is ballasted and fairly heavy rails are in use. From Parsons to Paola, Mr. Ryan says, the track is in first-class condition.

The commissioner has recommended many repairs and improvements to be made on the line.

This is the first report the commissioneres have given out as the result of the inspections.

When the Missouri Pacific track was inspected no report was made public, but Mr. Ryan took a stenographer on this trip and when he found bad track he had notes made.

MUST ORDER ELECTION

The Office of Sheriff Vacant in Jackson County.

Jefferson City, Oct. 23.—The county court of Jackson county has refused all requests to order a special election for the selection of a sheriff to fill a vacancy in that office created by the death of Sheriff Charles Baldwin. It has sought to fill the vacancy by an appointment of its own.

Yesterday members of the democratic county committee who brought the matter to the attention of the supreme court, were granted a writ of mandamus against the refractory judges. The writ instructs the county court to order the election and commands the judges there, if they fail to obey the order, to appear before the supreme court October 29 and show cause for their refusal to do so.

A MISSOURI MANIAC LOOSE

Looking for Ex-Asylum Patient Who Shot at His Brother.

Lamar, Mo., Oct. 22.—A man named Elder, who until six months ago was in the Nevada asylum for insane, but who recently has lived with his brother, became violently insane Sunday. He shot and severely wounded his brother. Elder's mother and father telephoned to Lamar for the sheriff.

The sheriff and city marshal went to the farm at once and made a thorough search of the place, but Elder had left, heavily armed, and no one could give any information as to his whereabouts.

WHERE "JOINTS" THRIVE

THERE ARE 150 PLACES WHERE LIQUOR IS SOLD IN CHEROKEE COUNTY.

THIS IS OVER IN STATE OF KANSAS

Prohibition is Supposed to Be in Effect There, But in Some Localities it is Simply a Huge Farce.

Columbus, Kas., October 23.—"I venture to say that the prohibition law is less enforced in Cherokee county than in any other county in the state of Kansas, Leavenworth not excepted."

This was the statement of the Rev. S. L. Chase, pastor of the Methodist church of Columbus, a few days ago.

"The reason is quite clear," continued the Rev. Mr. Chase, "the county is ruled over by a courthouse political ring, which forces the 'joints' to pay tribute and the gang divides the spoils. So arrogant and brazen has the ring become that it is not content with gratifying, under the guise of the law, but some if its members go so far as to boycott a business house or even a church, where its proprietor or pastor has the temerity to raise his voice in protest at the existing conditions.

"In my pulpit and in private life I have protested against this reign of anarchy in Cherokee county. A member of the courthouse ring, whose wife is a member of my church, demanded that she cease her attendance at my church. An ex-probate judge visited my bishop and tried to have me deposed. But I am still here and I intend to keep up the fight for the enforcement of the law so long as I remain here, which I hope will be until every 'joint' is driven out of Cherokee county."

The ideas advanced by the Rev. Mr. Chase are by no means his alone. Ask almost any merchant in Columbus and he will tell you the same. He may do so quietly and with an understanding that his name will not be used, but the facts outlined will be practically identical with those given by the Methodist preacher.

So far as the outward evidences of the open violation of the prohibitory law are concerned, the stranger in the county does not need verbal testimony. In an hour's drive in a buggy he wil see so many "joints" that were the proprietors of all of them arrested and properly tried the courts would be busy for months and the school fund would be increased by many thousand dollars.

FAYETTE GOT CONVENTION

State Chapter, Daughters of Confederacy, in 1908.

Mrs. Minnie B. Roberts has returned from Jefferson City, where she went to attend the state convention as a delegate from the Springfield chapter of the United Daughters of Confederacy, says the Springfield Republican

Springfield and Fayette were the only candidates for the 1908 convention of the order. Fayette was given the preference by a vote of 51 to 48. It was previously understood, however, that Fayette should get the 1908 convention.

It was afterward decided by a unanimous vote of the delegates present that the 1909 convention would be held in Springfield.

Our German or French brethren may be able to defeat us speeding through space in a balloon race, but when it comes to things on earth that's where your Uncle Samuel shines.

The Nevada Mail has been changed from a blanket sheet folio of nine columns to a six-column quarto, thus improving the appearance greatly. Editor Bean is to be congratulated, and so, too, are his readers and advertisers.

Blessed are the poor in these days when millionaires are doing the whale-Jonah act, when financial institutions with millions upon millions on deposit are forced to close their doors, and when call money is loaning at 40 per cent in the beehive where the Morgans, the Harrimans and others of their ilk do not do unto others as they would be done by.

With Messrs. Cowherd, Reed, Crow, Vandiver, Clark, Mosby, Whitecotton, Staples and others, surely the Missouri democracy is well equipped with gubernatorial timber. The race for the nomination, which is equivalent to election, may be spirited; but when it is over a united democracy will be found opposing the republican ticket, and that means that the "accident" of 1904 will not be repeated.

The season for conflagrations is at hand, and an ounce of preventive is worth a pound of cure. To this end wouldn't it be wise to spend a dollar or two having all of the flues at your homes and places of business cleaned? The suggestion costs nothing, nor is there any law compelling you to act upon it, but no doubt Fire Chief Willis will tell you the idea is not a bad one.

When Dr. E. A. Wood established Maywood hospital he gave to the city an institution of which every Sedalian who knows of its good work is proud. It has been a splendid success, because it doserved to be. Its best advertisers are the people who have been patients. With Maywood, the M., K. & T. and the City hospital, truly is the city well equipped in this regard.

The editor of Rosa Pearle's Paper is not the only person who noted and commented upon the cleanly condition of the paved streets of Sedalia the week of the state fair. It was pleasing work that was well done. But why confine it to one week a year? Why not say that cleanliness is a necessity, and extend it through the fifty-two weeks of the year? Money thus expended is wisely spent, and surely Sedalia can afford it—even if she has to curtail in the matter of steam rollers and other "luxuries."

Why a good, able-bodied man should desire a position on the police force, working twelve hours a day, one-half of the time at night, for sixty dollars a month, when there is such a demand for labor in all branches, working eight, nine and ten hours with one's nights at home, is almost beyond comprehension. And yet in Sedalia no sooner it is known that a policeman has resigned than a dozen men file applications to succeed him.

Experience has demonstrated that October is the proper month for holding the Missouri state fair. It has also demonstrated that Sedalia has much to do before the meeting in 1908. Shortage of hotel accommodations and poor transportation facilities to and from the ground have brought forth much criticism of Sedalia and Sedalians, even in the columns of papers whose editors are our friends. They have pointed out our shortcomings in the expectation that we will remedy them before the eighth annual fair is held, however, and it is now up to us to do the rest. Are we equal to the emergency? This paper feels confident we are; but do not let us wait until next August or September before we set about to remedy the evils complained of by our friends. Now is the time to start.

As has been remarked times without number, Sedalia is the Convention City of Missouri. Week before last, during the state fair, we had two or more conventions, merely as side issues. Last week we had nearly 200 ladies here attending a three-state missionary convention. Today we have the ladies of the Women's Relief Corps of this district, and to them the Democrat-Sentinel bids welcome. Truly all roads point to Sedalia, and Sedalians have a welcome for all strangers who come within her gates.

No doubt much of the criticism of the Missouri Pacific and its management is undeserved. The manager of the Democrat-Sentinel recently traveled extensively through the east, clear up into the New England states, and he desires to go on record with the statement that at no point on any other railway did he find smoother riding than on the main line of the Missouri Pacific from Sedalia to St. Louis, nor was the equipment better in a single particular, but often inferior. Some of the branch lines of the Missouri Pacific may be a little "off" and need looking after, but the main line is in fine condition without question.

A VERDICT FOR $2,500

IN FAVOR OF WILLIAM HEBERLING AGAINST THE CITY OF WARRENSBURG.

HAD BROUGHT SUIT FOR $20,000

Case Came Here on a Change of Venue, and Had Been on Trial in the Circuit Court for the Past Several Days.

(From Tuesday's Daily.)

After a deliberation of almost two hours the jury in the $20,000 damage suit of William Heberling, of Warrensburg, against the city of Warrensburg, returned a verdict at 9:30 o'clock last night, awarding damages to the plaintiff in the sum of $2,500.

The case has been on trial in the Pettis county circut court for four days. O. L. Houts, of Warrensburg, and Sangree & Bohling, of this city, represented the plaintiff, while Victor Gallaher, Charles E. Morrow, Joe K. Tuttle, James A. Kemper and Judge George F. Longan represented the defendant.

According to the petition, Mr. Heberling, on Dec. 17, 1902, fell into a culvert two feet deep at the intersection of South Main and West King streets in Warrensburg, and by the fall permanently injured his entire body.

Suit for $15,000 damages was filed. Later an amended petition, asking for $4,500 was filed, while a third amended petition, asking for $20,000, was filed by plaintiff's attorneys.

The case was brought here on a change of venue from Johnson county.

Other entries in circuit court were:

A. B. Dempsey, vs. Knight-Marshall-Howe Hardware Co., appellant; on trial.

Sam Nelson vs. Nancy Nelson, divorce; decree of divorce granted plaintiff.

The sensational charge of bribery was contained in the indictment and still a further sensation was caused when it was learned that the indictment charged that the attempt was made to bribe Prosecuting Attorney Coil.

The indictment alleges that Gorse offered Prosecuting Attorney Coil $20 with the intent to influence the state attorney in the prosecution of a case against Gorse.

NO MEAT FOR TEN DAYS

QUIT EATING IT THAT LONG IF YOU WANT TO GET REASONABLE PRICES.

THIS IS THE ADVICE OF A MINISTER

The Rev. Robbins, of Cincinnati, Says This Mode of Procedure Will Bring the Breef Trust to Time Quickly.

Cincinnati, O., Oct. 22.—That the people of Cincinnati go on a strike against the exorbitant prices of foodstuffs is the advice given Sunday night by Rev. G. R. Robbins, pastor of the Lincoln Park Institutional Baptist church, to his congregation.

Rev. Robbins, who frequently introduces economic questions into his sermons, gave a brief talk upon the subject, "How Can We Reduce the Present Price of Meat?" The talk preceded the regular sermon and elicited considerable applause from the large congregation assembled.

In part Mr. Robbins said: "I am very fond of meat, and have been accustomed from the early days of my childhood to the present to eating the same twice and three times a day.

"I am a busy man, and my body and mind demand the special nourishment and strengthening furnished by this divinely furnished food. I believe all men and women and children need a meat diet.

"God, through all the sweep of the ages, has caused to grow animals and fowls and fish in great abundance for the good of man The Bible makes frequent mention of the necessity of this sort of food.

"Today there is no famine in the and, no scarcity of beef and lamb and pork and fowl and fish, and yet such is the enormous price that millions of people must go without meat on their tables day after day and week after week, and consequently are pale faced and weak and many quite unable to do a full day's work.

"Steak 15 and 20 and 22 cents per pound, pork chops, 18 cents, lamb 20 cents, veal 22 cents. How can a laboring man with a family, large or small, purchase meat at such prices, or even those of moderate salaries?

"We cannot blame the retail meat dealers, and would not lay blame or burden upon them. But something ought to be done whereby these excessive prices be reduced 5 cents per pound everywhere in the United States.

"The time has come when there is going to be a revolt and combination against the pressure of increased cost of living which has been forced by combinations of capital and labor.

"Well, what can be done? My answer is simple. Let pulpit and press unite in requesting that all people, beginning with the first day of November, just for ten days positively refrain from buying a single pound of meat.

"That will be sufficient and will bring the desired results. That is what will come to pass in Maine, where the people of Gardiner, Hallowell and Augusta and neighboring towns have struck against the high prices of meats and have agreed to eat no more meat for ten days.

"In Boston the consumption of milk fell off 40,000 quarts at once upon the rise of one cent in the price of milk. Without any attempt at common action and as by one spirit the housekeepers cut down their orders. There is always not only a road to economy, but the reduction of the outlandish present price of meats."

Mr. J. R. Wicker, of Houstonia, Mo., was in Sedalia Tuesday to see Dr. Camp professionally.

LUTTBEG LOSES A MATCH

CONKLE WON TWO OF THE THREE FALLS IN KANSAS CITY LAST NIGHT.

MAX LUTTBEG TOOK THE FIRST ONE

Next Two Drops, However, Were Secured by Canadian So Quickly That Crowd Hardly Knew How it Happened.

Kansas City, Mo., Oct. 22.—After gaining the first fall in his match with Charles Conkle in Convention hall last night in one hour and fifty-eight minutes, Max Luttbeg was beaten so quickly in the next two falls that the crowd hardly knew what had happened. It took the Canadian less than two minutes to land the second fall and the last deciding tumble found Luttbeg's shoulders pinned to the mat before the crowd had resumed their seats. The official time for this fall was twenty-eight seconds.

The first fall looked like an endurance contest. Luttbeg was back of his man almost entirely throughout the struggle and bets were offered freely that neeither man would secure a fall. Time and time again Luttbeg secured holds that looked like the money, but Conkle would break them with ease. Even the famous scissors hold, a hold which has won Luttbeg all of his matches, was secured many times, but Conkle always broke them with a smile. He was continually "kidding" Luttbeg and the audience.

After one hour and fifty minutes of wrestling Conkle got behind his man and it looked as though he was going to end matters, but Conkle slipped and before he could get together Luttbeg pinned him to the mat and after a few minutes of hard work he landed the first fall with a scissors hold.

But the effort told on the lightweight champion. When he came out for the second fall he looked like he needed a nap, while Conkle was apparently as fresh as when he started. The Canadian took the aggressive from the start. He simply carried Luttbeg off his feet and before two minutes had elapsed he pinned the little German's shoulders to the mat with a bar lock and crotch hold.

"It's a fluke," shouted the crowd, but it wasn't. Luttbeg was simply all in and when he came out next Conkle picked him and slammed him to the mat so quickly that even the referee didn't know how it happened.

Conkle demonstrated that he is a great man at his weight. He could probably have won the first fall, but he took his time and allowed Luttbeg to do all the work. He was great on the defense, when he once got started.

During the intermission between the first and second falls War Eagle, the giant Indian wrestler, and Emil Klank, champion heavyweight of Canada were introduced and the announcement was made that Frank Gotch would meet the pair in a handicap next Monday night in Convention hall. Gotch contracts to secure three falls from the pair of giants out of five trys. War Eagle is a former Carlisle football star and he has made quite a record as a grappler in the far west. He weighs 240 pounds.

Local Wrestling Match.

Max Luttbeg and Lou Baptiste will meet in a handicap wrestling match at the New Sedalia theater Friday night, October 25th, Baptiste agreeing to throw Max twice in one hour, or should Luttbeg gain one fall in the time specified he (Baptiste) is to forfeit the match to Luttbeg.

There will also be sparring and other preliminaries to precede the match, to wind up with a battle royal.

Batiste is to wrestle young Gotch at Stephens' opera house in Boonville tomorrow night.

FIVE MILE LAW IS VALID

THIS WAS DECISION OF JUDGE W. N. EVANS AT COLUMBIA WEDNESDAY.

CASE IS WATCHED WITH INTEREST

Misscuri University Dramshop Keeper Will Appeal to Supreme Court —Hinges. on .a .Word .of Three Letters, "Now."

Columbia, Mo., Oct. 24.—Judge W. N. Evans, in the circuit court here yesterday, held the "five-mile" law to be constitutional.

The law provides that no license shall be granted to any person to keep a dramshop within five miles of any state educationa l institution which "now" has enrolled 1,500 or more students.

This law was passed at the last special session of the legislature. The university is the only state educational institution that has 1,500 studnts, and the law consequently applies only to Columbia and the surrounding territory.

In August Carl Kehr filed a suitable petition and asked for a license in Columbia, but was refused by the county court on the ground that it was forbidden by the "five-mile" law.

Kehr's attorney brought the matter into the circuit court through a writ of mandamus compelling the county court to show why the license had not been granted.

When the county court pleaded the "five-mile" law, Kehr demurred, and asked the circuit court to order the county court to issue the license.

Kehr's attorney held that the law was unconstitutional in that it was a special local law, for the word "now" in the law prohibited the law from ever applying to any other state educational institution.

Kehr will take the case to the supreme court. The whole contention was based upon the word "now."

Sunday Schools' Work

DR. G. L. SHEPHERD, CO. SUPT.—NO 35.

The October meeting of the Sedalia Sunday School union, as was announced last week, is to be held in the East Sedalia Baptist church Tuesday evening, October 22, at 7:30. We have promise of a paper on "Memorizing the Text of the Lesson," one on "Music in the Sunday School," and one on "Consecration." These are points vital to the success of every Sunday school. and we should have a large attendance and a profitable meeting.

The township convention held at Houstonia last Sunday was briefly reported in our city papers the early part of the past week, and that necessitates abbreviating our report beyond what we had intended. We can say, however, that it was a large and enthusiastic meeting. We did not see a dissatisfied person, or one who thought "the meeting ought to have been better." The house was filled to its full seating capacity. The papers were excellent and well delivered. The discussions were brief and to the point. The music was good and well selected. The recitations were fine, and, on the whole, not forgetting the basket dinner, it was an ideal township convention.

The audience united heartily in forming a permanent organization, planning to have two conventions a year, one in the spring and one in the fall. The names of the officers elected have already been given. The papers and recitations were as follows: Papers: "Punctuality and Regularity," Miss Effie Williams; "How to Improve the Sunday School," Miss Faye Tuck; "Excuses," Mrs. Curtis Westbrook; "Parents' Responsibilities," Mrs. L. L. Crews; "Sunday School Music," Miss Flora McClure; "Qualifications of Teachers," Miss Laura Brown; "Building Christian Character," Mrs. M. Beatty.

Recitations: "Bringing Our Sheaves With Us," Miss Ruby McClure; "Blessing of Song," Miss Alene Sewell.

If such a convention could be held in each township this fall the Sunday school work would doubtless be greatly advanced in our county. Can it not be done? We shall be glad to help, and there are several Sunday school workers in Sedalia that could be used to great advantage in this work. We must also be planning our county convention. We will talk about it next Tuesday evening at our union meeting.

PICKS UP WHISKY FLASKS

For Which Druggists Pay Him a Single Penny Each.

A 12-year-old Millgrove boy, who makes pocket money by picking up whisky flasks about that village and turning them back to a drug store at a penny apiece, cleared three cents on one bottle Saturday and had the vial in his possession again at night, says the Princeton Press. Suspecting that one of the drug stores there was doing an open saloon business, he marked a bottle and sold it to the store. In an hour or two he picked up the same bottle and turned it in again, repeating the operation twice before nightfall.

BRYAN TO RUN, ALLEN SAYS

Brother-in-Law Makes Positive Announcement.

Omaha, Neb., Oct. 24.—In an interview here yesterday Thomas O. Allen, of Lincoln, William J. Bryan's brother-in-law, and chairman of the democratic state central committee, says positively that Bryan will be a candidate for the democratic presidential nomination next year, and "roasts" William R. Hearst, who, he declares, will get the nomination of his Independence league for the presidency and use that to try to force the democratic convention to nominate him.

"But Mr. Hearst will fail to get the democratic nomination," he said. "He has done nothing recently to endear him to the democrats of the nation."

Mrs. Leslie-Carter Coming Jan 8

Mrs. Leslie-Carter, who is usually referred to as the Bernhardt of America, will present David Belasco's play, "Du Barry," in this city at the Sedalia theater January 8th.

Mrs. Carter's rendition of this role has proved the greatest triumph of the time—and the extent of this triumph can only be measured with her own supremely great successes in "Zara" and "Adrea."

Manager Olendorf says if Sedalia play-goers would prefer to see Mrs. Carter in "Zara," all that is necessary is to address him a postal card to that effect. It is up to the patrons to say which play they prefer.

ALL ARE FOR COWHERD

PETITIONS FOR NOMINATION POUR INTO SECRETARY OF STATE'S OFFICE.

FACTIONS ARE NOW ELIMINATED

Pettis County Sends in Names of All Its Leading Democrats—Mr. Bothwell is Mentioned for Empty Honor.

Jefferson City, Oct. 23.—Petitions continue to pour into the office of the secretary of state for the nomination of William S. Cowherd for the democratic nomination for governor. Kansas City has sent down several of these, Clay county is in line with a monster petition, Pettis county has sent in one that contains the names of all the leading democrats of that county. There is no faction signing this petition. Seemingly all the democrats to whom it is presented have signed it. A petition is being circulated and will be filed from Cole county in a short time.

This demonstrates that the people are for Cowherd, irrespective of former party alignments. Dan Frazier Thompson, who is the secretary of the state military department under Governor Folk has come out in his paper, the Centertown Leader, as a strong advocate for the nomination. This fact disposes of the proposition advocated by some that Cowherd is to be a candidate of the so-called "old guard" only.

Former Attorney General E. C. Crow has written here for blanks, which is taken to mean that he is about ready to enter the race.

Col. James H. Whitecotton, of Monroe, who is attempting to enter the race on the proposition of submitting a prohibition amendment to the constitution, was here last week arguing cases in the supreme court. He declared that he is the farmers' candidate and that they will see "he is a winner."

But Col. Ed. M. Harbor, of Trenton, who was here Monday on business in the supreme court, claims he is a better farmer than Whitecotton, for he has a farm stocked with a hnudred head of cattle. He declares that the farmers are for him.

John H. Bothwell, of Sedalia, vice chairman of the republican state committee, was also here Monday arguing cases in the supreme court. He is being urged by the conservative element of the party as the republican candidate. He will not say what he will do until it has been fully demonstrated to the Hadley boomers that the attorney general will not allow his name to be used. Hadley has declined a dozen times, yet the faithful continue to send in petitions and to "boost" him for that nomination.

State Senator F. W. Peck, of Atchison county, has declared that it is time that Hadley makes a clear cut declaration of his intentions, and he declare s further that if Hadley does not run, that Lieutenant Governor John C. McKinley will be available for that nomination. All the republican leaders are apparently waiting to see what the attorney general will finally determine to do. If he persists that he cannot lead the party to defeat in the next campaign, then either Bithwell of McKinley or some other of the faithful will try for the nomination.

It is reported here that Governor Folk has about decided that he will not enter the contest for United States senator, and that W. D. Vandiver, superintendent of the state insurance department, may try to secue that place from Senator W. J. Stone. Vandiver was strong two years ago as the leader of the Folk forces.

He has the union printers of the state after him for awarding a contract for printing to a non-union St. Louis firm in the attempt to save money for the state. It has now been figured that he did not get the work gone any cheaper than it could have been done under the state contract.

OA "ROAR" FROM AN EDITOR

He has Something to Say in Regard to the State Fair.

We issued the Times one day earlier than usual last week and stated in big black type that we had gone to the fair, says the Leeton Times. Well, we would have been off but for the blarsted Katy train, which was truly off—that is, it was off the track somewhere out in Kansas.

We were accused of prevarication and also asked ninety-nine times, "How's the fair?" This was more than our nerves could stand, so we decided to catch the first train out, and through the courtesy of Conductor Wilson we were enabled to reach the Queen City at 10 p. m. Thursday night.

The fair was up to the standard for such institutions. The exhibits were good in their entirety. The track was in fine condition and some good races were pulled off.

Extortion was practiced to a certain extent, but was no worse than could be expected. One thing we looked on with disfavor, however, and this was the way in which the people were driven from the amphitheater after they had paid their admission and gained access to same.

'Tis true a few seats were provided free, but not enough to accommodate one-tenth of the people who attended. If the great state of Missouri, with her wealth, cannot furnish a place of refuge for the tired and worn bodies of those who attend, without charging an additional 25 cents, then we are in favor of taking up a public subscription and donating it for this purpose. Shame on the management. The matter should have been looked after before the commencement of the fair.

ARRESTS ARE ENJOINED

JUDGE POLLOCK GRANTS THEATER MEN A RESTRAINING ORDER.

WILL HAVE A HEARING TOMORROW

The Marshal, Prosecutor, Police Commissioners and Chief Prohibited From Interfering With the Sunday Players.

Kansas City, Mo., Oct. 24.— On the application of the attorneys for theater managers, Judge John C. Pollock, of the federal court at Topeka, last night granted a temporary order restraining the city and county officials from arresting or interfering with the managers, actors, actresses, musicians, stage hands or other employes of the theters in Kansas City for giving Sunday performances.

The order is sweeping in effect and was made by Judge Pollock, acting for Judge John F. Philips, of the United States court for the Western district of Missouri. It is directed against the following officials: Andrew E. Thomas, clerk of the criminal court; Albert Heslip, county marshall; Mayor Henry M. Beardsley, A. E. Gallagher and Elliott M. Jones, members of the board of police commissioners; Daniel Ahern, chief of police, and Isaac B. Kimbrell, prosecuting attorney.

The order says that no warrants are to be issued, no arrests made, no prosecutions ordered or conducted, and that none of these officers or anyone under them, or anyone, clothed with any authority to make any arrests, issue warrants or conduct prosecutions, is to interfere or molest in any way any person connected with the theatrical profession in Kansas City, pending the final hearing of the case.

Judge Pollock set the hearing for the temporary injunction for 10 o'clock tomorrow morning in Judge Philip's court room.

WEEKS TO MEET ATTELL

The Little Fellows to Fight in Los Angeles October 24.

Los Angeles, Cal., Oct. 24.—All doubt of the scheduled battle for the feather-weight championship taking place was dissipated here when, at a conference of Freddy Weeks and Abe Attell, the little fellows, with the management of McCarey's Athletic club, it was settled that the contest take place here on October 29.

The men had been at outs on several minor points, but were induced to give over argument and come to terms.

SOON TO LEAVE SEDALIA

Dr. Geo. L. Shepard, Who Has Lived Here for 31 Years.

Dr. Geo. L. Shepard, the dentist, has disposed of his home property, 501 North Park avenue, to Raymond Voigt, of Hughesville, and will give possession December 31st. Soon after that date Dr. Shepard will leave for Indianapolis, Ind., where he will make his home in future with his son, Harry.

Dr. Shepard has been a resident of Sedalia for the past thirty-one years, and no better citizen ever dwelt within the city's confines. He has seen the Prairie Queen grow from a hamlet to a magnificent city, rearing a splendid family here in the meantime, and it is not without pangs of regret that he now, at the age of 65 years, goes to another state to pass his declining years.

That he may in time win as many friends in his new home as he leaves in the old is the sincere wish of the Democrat-Sentinel.

Mrs. Blanche Foster, widow of the late E. E. Foster, who died only a few weeks ago, yesterday moved her family and household effects to Sedalia, where she has rented property and will make her future home, says the Moberly Democrat.

Mrs. Foster has relatives at Sedalia, which are her reasons for moving there. We regret very much to lose this family from our city, but both Mrs. Foster and her children have the best wishes of the Democrat and hundreds of Moberly friends in their new home in Sedalia.

INDIAN TERRITORY MINES ON M., K. & T. RAILWAY CLOSE FOR A WEEK.

THERE IS A SCARCITY OF CARS

Shut Down Has Cost Operators Production of One Thousand Cars. for Which There Is a Great Demand.

McAlester, I. T., Oct. 24.—All coal mines on Katy lines throughout Indian territory have been idle since Tuesday evening, October 15, but hope to get cars to enable them to resume operations by the 24th or 25th.

It is stated that the Missouri, Kansas & Texas has something over 4,000 loads blocked on their various sidetracks and terminals between Denison and Muskogee, and railroad officials, for the first time in the history of the road, have requested mines to refrain from loading any coal for a period of one week, to enable them to clear up the accumulation of unbilled loads.

The shutting down of the mines for the past week has cost the operators the production of at least 1,000 cars of coal, for which the demand at this time is very great.

NEW ELECTRIC RAILWAY

The Line That Is to Run From Higginsville to Warrensburg.

A letter to the Commercial club from Capt. M. L. Belt, of Higginsville, says that he will be in Warrensburg Tuesday evening or Wednesday morning to take up the matter regarding the new railroad for Warrensburg and Higginsville, says the Warrensburg Star.

He says that the survey and the profile of the route is completed and that the blue prints are now being made in Kansas City and will be ready for the use of the right-of way committees this week.

Everything looks bright for the new outlet for Warrensburg, and it behooves everyone to lend a world of encouragement to the enterprise as it means a great deal for Warrensburg and Northern Johnson county.

The people of Northern Johnson are determined to have a railroad and if it don't come to Warrensburg it is certain to head some other way and thus cut off our trade from that section to a great extent. With the road coming into Warrensburg this city will reap many advantages.

KILLED BY A "KATY" TRAIN

Rocheport Booze Causes Man to Lose His Life.

William Calvert, aged 42, a prosperous farmer, living near Lloyd station, in Howard county, was run over and killed by the eastbound Katy local freight at 3 o'clock Saturday afternoon, says the Boonville Democrat.

Deceased was born and reared in Boone county and had just finished paying for the farm on which he lived. He had been at Rocheport and was walking home on the track in an intoxicated state when he was killed. The train passed over his body and completely severed it in two.

Engineer Eppenaul, of New Franklin, saw him on the track, and whistled and supposed he would get out of the way.

At the inquest there Sunday it was found that Calvert had been drinking, and when his body was searched two partly filled bottles and $90 was found in his pockets.

Calvert leaves a wife, son and daughter, aged 12 and 17 years, respectively.

GOOD BLOOD

NATURE'S PROTECTION AGAINST DISEASE

The preservation of health and prevention against disease is almost entirely dependent upon pure, healthy blood; every organ, tissue, nerve and sinew of the body draws on this vital fluid for nourishment and strength. Poisons, humors and germs from various sources often get into the blood, and then this great life-stream becomes a source of infection and disease, instead of nourishing, health-sustaining fluid. Heredity is likewise an important factor, regulating the quality of the blood. Some persons are born with tainted blood from diseased ancestry, and Scrofula in one of its numerous forms is sure to crop out some time in life. Not only poisons in the blood are responsible for disease, but when the circulation is run down and becomes poor and weak in quality, then we see the effect in a general bad condition of health, such as weakness, sallow complexions, boils, and various skin eruptions. All blood troubles require a tonic and blood purifier, and none other equals S. S. S. It goes down to the very foundation of the trouble, and removes every particle of the poison or impurity from the blood. And not only does S. S. S. antidote the poisons, humors and germs, but it possesses health-giving, tonic properties, which build up and strengthen weak, impoverished blood, and fortifies the system against disease. S. S. S. permanently cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Eczema, Tetter, and all other skin diseases and disorders. Book on the blood and any medical advice free.

AFTERMATH OF THE STATE FAIR

What Are We Going to Do About Taking Care of the Still Larger Crowd That Will Be Here Next October?

To the Democrat-Sentinel:

Now that the state fair is over it is in order to "take stock" of the results in the way of attendance and entertainment so far as Sedalia is concerned.

Practically all of the great agricultural and live stock papers of the west were represented here by experienced field men who are accustomed to reporting all of the great fairs throughout the country. So far as I have observed, not one of these men has uttered a word of harsh criticism about the fair or Sedalia. But they are in a position to see things differently from our citizens, hence their observations may be considered with profit.

Burns' immortal declaration,
"Wad some power the giftie gi'e us
To see oursels as ithers see us."
aptly illustrates our status as viewed by visitors.

I append a clipping from the Iowa Homestead, of Des Moines, one of the greatest agricultural paper in the west, that suggests food for serious thought by all Sedalians who have the welfare and good name of their city and the state fair at heart.—M. V. Carroll.

"The Missouri State Fair."

Plans for the future are always in order with a board of fair managers. There are two things which should receive most serious consideration by those who have next year's fair in hand. Unfortunately Sedalia is badly handicapped for room. Furthermore it has poor service to the fair grounds. The former is the most serious. A good county fair gathering would have been put to discomfort to find lodgings at Sedalia last week. No blame can be placed on the residents and hotel keepers for lack of willingness to extend hospitalities. Every nook and corner, as it were, was put to some use. Nevertheless the fact remains that Sedalia is not as yet able to measure up to the emergency of caring for her visitors. We hesitate to imagine what the condition will be when the fair attracts as many thousands as some of the older institutions of its kind. There is a considerable difference in the quality of the patronage a state fair may attract. Sightseeing under the extenuating circumstances that exist at Sedalia can hardly be depended upon to hold the best patrons and also draw on new territory for support. Outside of tenting the overflow, there appears to be no suggestion that might lead to a betterment of conditions. So much for this situation.

Next in importance to quartering a fair aggregation is the problem of moving the same to and from the city. Whoever deserves blame for the impossible transportation service between the grounds and the city deserves it in double measure. Apparently with the street car line and the two steam spurs there could have been three times as large an attendance handled. There seemed to be an abundance of rolling stock and the only probable cause for keeping not one train load of people but many on two miles of road for an hour or more, can be inefficient management. At some fairs half as much rolling stock cares for twice the crowd that was at Sedalia, so that the fault must be in the kind of service. A criticism is incomplete without a proposed remedy, so we offer the following: Either place conductors at the car entrance to take all fares and do away with the further bother to the passengers, or enclose all trains at the boarding points so that all those who gain admittance will have passage paid and collected. This will prevent the aggravating annoyance of holding the train down to a snail's pace in order to collect fares before the destination is reached. For this cause the trains suffered the most delay.

BEARD INSIDE HIS MOUTH

Mr. Roberts, Wichita Grocer, Afflicted With Peculiar Growth.

Wichita, Kas., Oct. 22.—John B. Roberts, a well known grocer of this city, bids fair to soon have a well-grown beard inside his mouth.

Since June the beard on Mr. Roberts' left jaw has been growing inward instead of outward, despite the efforts of numerous surgeons who have tried to check it.

The surgeons pronounce Mr. Roberts' case one of the strangest known to science. When the inside beard first began to develop an operation was performed at one of the local hospitals to check it, but without beneficial results.

A BOY FROM BOONVILLE

Who Has Got to the Front in Good Shape in St. Louis.

St. Louis, Mo., Oct. 23.—Management of the retail department of the J. Kennard & Sons Carpet company has been placed in the hands of Fred L. Bronaugh. He takes the place made vacant by the recent death of Martin Voorhees. Mr. Bronaugh will also be the foreign buyer of rugs for the firm, and among his duties will be an annual trip to the Orient.

Mr. Bronaugh has been with the firm for fourteen years, and during that time has worked himself up steadily to his present important position. He is one of the youngest men in the country to hold such a responsible position. Boonville, Mo., was the birthplace of Mr. Bronaugh and he graduated from Central college at Fayette, Mo. In 1893 he came to St. Louis and became connected with the Kennard firm, continuing with it since that date. He lives at 5705 Cates avenue and is married.

Mrs. L. Wisdom, of Plattsburg, Kas., is now in Sedalia trying the inhalitorum treatment, and is improving nicely under Dr. Camp's skillful treatment.

Something Else "Has Gone Up."

PETTY HAD $9,870 SALE

IT WAS ONE OF THE BEST HELD IN PETTIS COUNTY THE PRESENT SEASON.

THE ATTENDANCE WAS VERY LARGE

There Was No Trash to Sell, and Those Present Got Down to Business, Paying Good Prices for All Offerings.

(From Thursday's Daily.)

Walter Petty held a closing out stock sale on his farm, one mile southwest of Sedalia, yesterday, which proved to be one or the largest and most successful stock sales held in the county this season.

Nearly 450 head of stock, including horses, mules, cattle and hogs, were disposed of at good and satisfactory prices. It was his fifth annual sale, and the same large crowd of buyers who usually attend his sales were there, nearly all of whom proved bidders and buyers.

There was an absence of the usual yardful of skillet lids, pot hooks and trace chains to be disposed of, and as soon as the crowd assembled the stock sale was opened.

The first offering was twenty head of 2-year-old steers, which sold to James Farris, of Rodelia, for $40 each; sixteen head of yearling steers sold to Robert Warren, of Sedalia, for $27.10 each; another bunch of twenty-two head of yearling steers went to J. A. Heck, of Sedalia, for $24.80 each; twenty head of 2-year-old steers were secured by James Farris, of Rodelia, for $35, and the same bidder got another bunch of twenty head of the same age for $36.60.

Twenty head of bull calves went to Clem Mahan, of Green Ridge, for $16.75; Isaac Warren, of Sedalia, got another bunch of twenty head for $16.10; a bunch of seven head of steer calves sold to Robert Warren for $19.20; a good number of milch cows sold at prices ranging from $20.50 to $45.

After lunch, which was served by the Walch Catering Co., of which all partook with a keen appetite, the hosre sale was on.

A 6-year-old saaddle and harness horse went to B. J. Curran, of Sedalia, for $197.50; a 6-year-old horse went to E. B. Elliott for $110; a sorrel mare was secured by John Menefee for $198; a black mare went to Frank Kaier, of Sedalia, for $252.50; a 9-year-old horse went to Henry Shafer for $100; a 4-year-old sold for $130, and other horse stock on down the line.

A pair of 3-year-old mules was secured by J. R. Hampton, of Sedalia, for $250; a 3-year-old mule sold to John Bouldin for $155; another for $141; still another for $131; a 4-year-old mule brought $151; another $149, and a good number of 2-year-old mules sold at prices ranging from $100 to $136.

One hundred and eighty head of stock hogs, ranging in weight from 90 to 150 pounds, sold in bunches and brought from 6 to 8 cents per pound.

Cols. C. J. and Kemp Hieronymus and Col. C. N. Henry conducted the sale, and while it was a big day's work it was finished with perfect satisfaction to the proprietor.

Col. L. K. Meyers, the expert sale clerk, of Windsor, who has a perfect system of keeping sale books, which enables him to give at any time the standing of the sales within ten minutes after the last head had been sold, and the sale closed, gave the aggregate of the sale at $9,870.

ROOSEVELT IN WASHINGTON

President Pleased With Reception Throughout South.

Washington, Oct. 24.—President Roosevelt reached the White house from his southern trip yesterday afternoon at 4 o'clock, exactly on schedule.

To those who met the president here it was noticeable that he had added several shades to the bronze of countenance acquired during the summer months at Oyster Bay. He expressed himself as greatly pleased with his trip.

CHOKING WAS CHARGED

Jury Voted Tnree to Three Against Giving Student $3,000 Damages.

Nine to three was the vote of the jury that decided that Prof. George H. Beasley, principal of the Columbia Normal academy, did not choke and beat his pupil, Andrew Jackson Clay, for non-payment of tuition, says Tuesday's Columbia Herald. It took the jury only a few minutes to decide.

The boy, whose father is dead, brought suit against Prof. Beasley through his next best friend, Ira T. G. Stone. He asked $1,500 actual damages and a like amount of punitive damages, a total of $3,000.

At Monday's trial the testimony of Clay himself was much weaker than was expected. He got somewhat tangled on the stand and failed to give the evidence that his attorneys expected him to do.

The boy's home is at Augusta, Mo. His mother was present at yesterday's meeting and did what she could for the cause of the boy.

It seems that the controversy between Prof. Beasley and young Clay arose over some misunderstanding about the giving of credits for work done and the payment of tuition. There is some talk of the case being appealed.

THE SITUATION IS BETTER

IN FINANCIAL CIRCLES IS REPORTED IN DISPATCHES FROM NEW YORK.

DESPITE IT, OTHER BANKS CLOSED

Run on Trust Company Continues—Empire City Savings Bank, Twelfth Ward Bank and Hamilton Bank Close

New York, Oct. 24.—The financial situation is reassuring. A series of conferences last night, participated in by Secretary Cortelyou, J. Pierpont Morgan and representative bankers, lasted until 1 o'clock this morning, at which time Mr. Cortelyou gave out a statement in which he said:

"Those familiar with the facts have known that the situation was made serious largely by the circulation of unfounded rumors and the unreasoning anxiety of many who thought only for a moment.

"Strong and able men are rendering aid, and in behalf of the treasury department I may say I believe it my duty to do so, and I shall do in the largest way possible whatever be necessary to afford relief. I have directed deposits in this city to the extent of twenty-five million dollars."

The run on the Trust Company of America was continued this morning.

The Hamilton bank, in West One Hundred and Twenty-fifth street, suspended payment today. It is announced that the bank is solvent, but in justice to the depositors payment was suspended until public confidence is restored. It was one of the smaller institutions.

The Twelfth Ward bank today suspended payment to depositors. A state bank examiner was placed in charge.

The Empire City Savings bank, also in the West One Hundred and Twenty-fifth street, posted a notice this morning announcing a suspension for thirty days. Officials of the bank declare the institution is solid, but feared a run, owing to the suspension of the Hamilton and Twelfth Ward banks.

The Empire City bank owes depositors about three million three hundred thousand dollars.

Stock Exchange Did Not Open.

Pittsburg, Pa., Oct. 24.—The members of the Pittsburg stock exchange decided not to reopen for business today.

Banks Get Three Holidays.

Reno, Nevada, Oct. 24.—Owing to the general feeling of unrest that prevails in financial circles, Governor Sparks has declared today, Friday and Saturday legal holidays, and all banks throughout the state are taking advantage of the respite to get their affairs in such shape as to make failure impossible.

Thomas A. Edison, the great American inventor, says: "Fully 80 per cent of the illness of mankind comes from eating improper food or too much food; people are inclined to over indulge themselves." This is where indigestion finds it beginning in nearly every case. The stomach can do just so much work and no more, and when you overload it, or when you eat the wrong kind of food, the digestive organs cannot possibly do the work demanded of them. It is at such times that the stomach needs help; it demands help, and warns you by headaches, belching, sour stomach, nausea and indigestion. You should attend to this at once by taking something that will actually do the work for the combination of natural digestants and vegetable acids and contains the same juices found in a healthy stomach. It is pleasant to take. It digests what you eat. Sold by Arlington pharmacy.

Hog Sale Aggregated $1,584.

At the Hoadley hog sale, Tuesday, fifty-five head were disposed of for $1,584, or an average of $28.80 each.

SEDALIAN HEARD FROM

MR. FRANK WILLBARGER, WHO RESIDES AT SOUTH BEND, IN INDIANA.

WRITES REGARDING HIS NEW HOME

It Is a Great Manufacturing Center, With Beautiful Streets and Public Utilities That Are a Pleasure.

Mr. Frank Willbarger, the electrician, who recently resigned his position with the Sedaila Light and Traction Co., and after a residence of twenty-seven years in the Queen of the Prairies, returned to his old home in South Bend, Ind., writes from there to the Democrat-Sentinel, under date of the 20th, as follows:

To the Democrat-Sentinel:

I promised so many Sedalia friends that I would write them I have decided to write to you. That will do for all. I am in the fresh fall breezes of Lake Michigan. We came over the Missouri Pacific railroad, took in St. Louis, then over the Chicago & Alten through Central Illinois, with its vast prairies of splendid farms and lovely little towns. We took in Chicago, that little village. You have heard of it, I presume. It is on the map. Took the Lake Shore railroad, double track from New York to Chicago, fine roadbed, good system, double-header passengers, with large, fine engines; we just flew. Met a passenger train from New York. I thought we had run into a cyclone, when, whiz, I thought it had blown my head off. Arrived in South Bend intact.

I found that the late cold snaps in the spring had seriously affected the crops and fruits of those states I passed through; about half a crop, so necessarily everything is high. I was reared in this country, but left when a young man; married in the west, remained there and reared a family. It's been thirty-three years since I was here. How time has wrought changes! Everything is as strange to me as though I never saw the place before. "The old home ain't what it used to be." The scenes and environments of my happy childhood have disappeared. The old home has vanished; my parents that watched and cared for their boys' wishes are sleeping beneath the sod in Grace Lawn cemetery.

When sister and I visited their resting place and stood by the marble monument twelve feet high, with the name of "Dr. S. F. Willbarger" carved within entwining vines upon it, our memories went back to the days of unalloyed happiness of our childhood, and I thought with a sad heart how mysterious and fleeting is life—the constant passing of millions of human lives.

I wish to draw a comparison, not with Sedalia, but with Georgetown or Smithton, as I realize the fact that Sedalia is the Queen City of the Prairies and does not take second place for any town; she is strictly up to the twentieth century. I will just mention a few unimportant trifles.

This little burg has beautiful straight, wide streets, running north and south and east and west. The business streets are seventy feet in the clear, with sixteen-foot sidewalks. All streets in the city are paved, also the sidewalks. There is no step-up at a sidewalk or gutter. It is made level. The electric wires in the business center are all under ground except the street car trolley. They have iron poles. The streets are lighted by alternating arcs at every corner, on ornamented iron brackets; the residence portion by suspended arcs in the center of the street on straight nice painted poles. All wires are in the clear and thoroughly insulated. It is the cleanest, neatest little city I was ever in; no holes in the paved streets like in Georgeeown. You could not get enough rubbish on all the streets to make a mouse nest.

The water system is perfection and the supply unlimited. It is from artesian wells, clear and sparkling as diamonds. The fire supply is unlimited, from the river right in town, with an up-to-date fire system; central station, with engines, two hose carts, one chemical outfit, one safety wagon, with safety outfit for people to jump into out of windows; one hook and ladder outfit, two chiefs, special outfits. There are eight of these stations over town. You could not insure your house here, then burn it, as the fire department would have it out before it started, with perhaps $5 damage.

There are over fifty miles of street car tracks here; double track, heavy rail, with fine cars, fenders, air brake, etc. The interurban lines are up-to-date, running from South Bend east and north, with the longest and finest coaches made. The beautiful St. Joe river winds its way through the town. Along its banks are beautiful, lovely parks, with places of amusement, granitoid and gravel walks along the river to the water edge, where you can get electric boats and take a spin.

The river is spanned by a number of costly bridges. Two are made of concrete entirely. All have electric lights on them. There are lovely electric fountains, with resting places for tired people. All is aimed to make life as pleasant as possible.

The street car system pays here. People ride here like in Sedalia at fair time. The electric cars are up-to-date. The business houses are a grand sight. At night the fronts are all strung with thousands of electric lights. The insides are a perfect glow. One store I was in last evening, smaller than Flower & Barnett's, had twenty alternating arcs on that floor alone, besides incandescents on the ceiling and windows too numerous to mention.

The factories here are also too numerous to mention. There are some of the largest in the world and employ from 500 to 3,600 men each. The town manufactures nearly everything needed for the human family, including automobiles and watches. The place has natural advantages that necessarily draws manufactures. They have no use for a one-horse, hot air promoter who has a cannery or a factory for sale, to create a boom on, like in Georgetown. The growth is steady and substantial. This is the home of the great Singer Sewing machine manufactory. It is a city of itself, employing over three thousand men, with an electric system larger than the Broadway plant.

They quit work at noon Saturday and allow a full week's pay. Some of their buildings are fire-proof, built of brick, steel and concrete, with concrete ceilings and floor.

Their private water system is larger than Sedalia's. The manufacturing interests here have imported thousands of foreigners and employ them. There is only a small per cent of Americans sprinkled among the Poles, Russians, Hungarians and Dagoes. I think it's time now to begin to agitate the question of colonizing the Americans. The politicians say, "America for Americans." That is a misnomer. Now it's America for Hungarians, Dagoes, etc. The proud American can hunt an island in the sea or North pole.

This is the home of the Oliver plow factory, a large institution. It has the largest electric sign in America. The height of the letters is eighteen feet. The trade-mark is an electric plow, and the word "chilled" forty-two feet high by 136 feet. The length of the sign is 250 feet, with thousands of lights. It burns every night, stands on top of the building and can be seen for miles as you approach on the Grand Trunk and Lake Shore railroads. It is grand. It is emblazoned upon the sky like the starry heavens. It has to be seen to be appreciated. Now, I will close with a good wish for Sedalia's future and prosperity for all. Respectfully—Frank Willbarger, 420 South Franklin Street, South Bend, Ind.

MOB LYNCHES A NEGRO

Prisoner Threatened Woman's Life Over Telephone.

Okolona, Miss., Oct. 23.—Henry Sykes, a negro, was taken from an officer at Van Vleet, a small station five miles from here early last night and lynched by a small mob of citizens of this place. He was being taken to Houston, Miss., for safe keeping. He was charged with making proposals to a young woman over the telephone and threatening her life if she did not yield.

Marshal Murphree and two young men overheard him, a trap having been laid to detect him, and made the arrest. The negro tried to kill the trio, and his pistol snapped several times before he was overpowered.

J. J. Jolly, a well-known citizen, was deputized by the sheriff to take the prisoner to Houston. He left here mounted, with the negro on foot. The capture and lynching followed.

TOUCHED EARTH AT 6:15

UNITED STATES' PILOT LANDS AT POINT THIRTY MILES WEST OF BUFFALO.

HERSEY'S FLIGHT WAS 700 MILES

Made a Successful Landing at Caledonia, Ontario, at Hour Stated Above—A Brief Sketch of the Aeronaut.

New York, Oct. 23.—A telegram was received here last night from Maj. Hersey, pilot of the balloon United States, stating that he landed at 6 p. m. at Caledonia, six miles from Hamilton, Ont.

Situation Last Midnight.

St. Louis, Oct. 23.—The balloon situation at midnight presented a strange state of affairs. The United States, according to advices from Detroit, Alpena, Mich., and Chatham, Ont., had covered the remarkable distance from St. Louis of 575 miles. Alpena is on the northeast peninsula of Michigan, with Lake Huron and Canada due west. Maj. Hersey, who navigates the United States, was traced over Michigan lake and state, and finally over Chatham, Ont. The Pommerin, one of the two German entries, passed over Cleveland at 8:10 p. m., and then over lake Erie. His message, dropped at Cleveland, told his intention and when last heard from he was over the lake.

The French were last definitely heard from at Springfield, O., and moving slowly northeast, high in the air. They dropped a message.

From as far east as Wheeling, W. Va., and as far west as Winona, Minn., and as far north as Chatham, Ont., advices tell of having seen balloons. They have traveled over Ohio and Indiana and Michigan towns in groups of two to five.

However, the general course seems to have been northeast, for a certain group, led by Hersey, and east, led by Chandler and McCoy in the America, who say they will not cross lake Erie.

So far no balloon is reported as having landed. It is expected that slow ones will come down today. It is not known when Hersey will come down.

Six of the contestants have been reported by name from different sections of the country, this leaving but three whose identity has not been established at some point or other. It is thought from the meager and scattered reports which have thus far come in, the second balloon in the contest is the German entry, Pommerin, from which a note was dropped at Cleveland, and which was traveling east over Ohio at a rapid rate of speed.

The other balloons identified and reported are the America, from which a note was dropped at Marion, O.; the English balloon Lotus II, sopken at New Augusta, Ind., the American balloon St. Louis, spoken at Macomb, Ill., and the German balloon Dusseldorf, which dropped a log book at Mattoon, Ill.

This leaves the two French entries, L'Isle de France and Anjon, and the third German entry, Abercron, not specifically accounted for.

Hersey's Wonderful Flight.

St. Louis, Oct. 23.—The wonderful flight of the balloon United States is credited largely to the shrewdness and technical knowledge of meterology possessed by its pilot, Maj. Henry B. Hersey. Air currents are with him reduced as near as possible to a mathematical science, due to his long service with the United States weather bureau, of which he is the official inspector.

In preparation for the flight, Maj. Hersey sent out an order to all the United States weather bureau stations in the vicinity of St. Louis, directing that a special observation be taken at 1 o'clock the day of the starting of the race. When he left the earth he had data to show the exact condition of barometer, temperature, direction and velocity of the wind all over this district, which includes several middle west states. When he left the ground he was trying to get into a current that would carry him up the St. Lawrence valley.

Major Hersey was aid to Lieutenant Lahm in the cup winning voyage from Paris a year ago, and has made two trips with Wellman on a north pole quest. These were made in 1906 and 1907.

When asked just before he started whether he intended to cross the Great Lakes, he said: "If I come to them, I do, sir." He crossed lake Michigan early yesterday morning. Major Hersey is 52 years of age, being the oldest man in the present race.

Airship Engine Fails.

St. Louis, Mo., October 23. — The 20,000 persons who assembled at the balloon grounds yesterday afternoon experienced a real thrill of excitement when the engine on the airship operated by Jack Dallas, in a practice exhibition, broke down, and the vessel drifted from the enclosure and plunged down upon the telegraph and trolley wires along King's highway, near the northwest corner of the enclosed space. Dallas and the airship were extricated from the dangerous and unpleasant position by two trouble wagons of the United Railways company, which dashed up in a remarkably short time. The balloon was but slightly damaged.

Before Dallas made this flight Captain Thomsa S. Baldwin gave a practice exhibition with the California Arrow, and Cromwell Dixon, Jr., the 14-year-old aeronaut, gave an exhibition with Sky Bicycle, which showed that he could operate in any direction in a light wind. He then padeled away to the eastward, and was lost to view near the Mississippi river. He landed at Veniee, Ill., last night, after crossing the river. He was followed by his mother in an automobile, and returned with her to the city.

ANDERSON SALE FRIDAY

IT WAS ONE OF THE BEST HELD IN THE COUNTY DURING THIS SEASON.

AGGREGATE WAS ABOUT $4,000

Very Large Attendance, and Everything Offered, Especially Stock, Commanded Prices That Were "Way Up."

Geo. W. Anderson, administrator of the estate of Sam F. Anderson, deceased, disposed of the property of the estate at public auction on the old Geo. Anderson farm, 2½ miles east of Longwood, Friday.

The weather was an ideal fall day and everybody for miles around in Pettis, Saline and Cooper counties took a day off to attend the sale.

The crowd in attendance was the largest of any sale held in that section for years. All seemed bidders and anxious for some of the stock, which was of good grade in good condition and found ready sale at top prices, horses and mules especially selling way up.

A 3-year-old saddle filley, after much spirited bidding, was finally sold to Rube Miller, of Hughesville, for $334; the same bidder secured a 5-year-old saddle horse for the fancy price of $236; a 7-year-old brood mare went to Henry Epple, of Longwood, for $149; a yearling colt sold to Joe Thompson, of Pilot Grove, for $140; the same bidder got a yearling mare for $152; a two-year-old colt sold to Rube Miller for $189; the same bidder got a yearling filley for $173, both being considered fancy prices; a saddle colt was secured by Foree Bellwood, of Wanamaker, ofr $105, and other horses, young and old, sold at the same high prices.

Mules sold at balloon prices. Will Howe, of Postal, paid $300 for a pair of two-year-old mules; Owen Pile, of Wanamaker, paid $357.50 for a pair of four-year-old mules, while another pair of seven and eight-year-olds brought $405. A two-year-old mule brought $123 and a yearling went for $91.

Cattle also sold well. Steer calves brought $21.25 and two-year-old steers sold for $46, while hogs sold at 8 and 10 cents per pound.

The sale, which was conducted by Cols. C. J. and Kemp Hieronymus, was most satisfactory to all the interested parties, and Mr. C. C. O'Rear, of Longwood, who had charge of the books, gives the aggregate at $4,000. The ladies of the Longwood Presbyterian church served a splendid dinner. Tables were spread in the shade of the large trees in the Anderson yard, one of the finest spots in Pettis county, and about one hundred were acommodated at the sitting. The dinner served could not have been improvd upon, as it had everything to be obtained and in abundance.

The ladies took in something over $100, with an expense account of about $15, leaving them the comfortable sum of $85 profit.

BRIDGES WERE BURNED

BANDITS TRAPPED A PASSENGER TRAIN INSTEAD OF THE PAY TRAIN.

IT OCCURRED NEAR REYNOLDS, IND

The Would-Be Robbers Took to the Woods When They Found That Their Plot Had Failed Most Completely.

Chicago, Oct. 23.—The boldest and most picturesque attempt at a railway holdup near Chicago was reported Monday from Reynolds, Ind., near which place five bandits were routed in an effort to rob a Panhandle pay train carrying between $20,000 and $30,000.

To accomplish their design the robbers burned two railroad bridges within two miles, planning to trap the treasure train between the streams. They bungled and imprisoned a passenger train instead, and when the pay train drew up later and was stopped at the first bridge they had lost their strategic position and were repulsed by armed resistance.

When they found that they had halted a passenger train their nerve failed. Instead of dynamiting the train and shooting those who might oppose them, the hold-up men took to the woods. Not a passenger aboard the trapped train was molested.

Officials of the railroad were staggered by the boldness of the scheme.

The passenger train was backed up towards Reynolds to notify the dispatcher that the track was blocked. The passenger train, with more than a hundred excited passengers aboard, would have plunged into the gap caused by the burning of the bridges behind it if the smoke had not warned the flagman of the danger.

The pay train, following the passenger train, was also warned by the smoke of the burning bridges, and was halted within a few feet of the burning bridge.

When the crews of the trains realized that the burning of the two bridges was part of a plot to hold up and rob the pay train they notified the railroad officials and started out a posse to hunt for the bandits.

A number of passengers joined in the chase, and for miles around the country was scoured.

Guards from the pay train joined in the hunt for the train wreckers, but after an all-night and day chase the hunt was given up.

The pay train hurried back to Reynolds and to safety, and the train dispatcher there was able to send word out in both directions and stop approaching trains. Passengers were transferred across the two streams, and, after a delay of many hours, the burned bridges were replaced by temporary structures and regular service resumed.

ADVICE FOR SEDALIA

The Moberly Democrat Writes Regarding State Fair.

Sedalia is being given considerable kindly advice relative to her duty to the state fair, says the Moberly Democrat. It is now clear that she will have to make additional efforts to accommodate the ever increasing crowds at this fair.

Sedalia cannot commence too soon to make additional accommodations for the taking care of the people. The matter of transportation from the city to the grounds can be improved and made sufficient if the matter is take hold of with proper vigor by the citizens of Sedalia.

It is to be hoped that Sedalia will make good in this matter and thus prevent any complaints from any source next year. If it does not do so that city will receive much adverse criticism instead of the favorable advertising that she should if all are satisfied.

WEEKLY DEMOCRAT-SENTINEL

THE KATY AND THE O.R.T.

STRIKE BEEN IN EFFECT PRACTICALLY FOR THE PAST THREE YEARS.

NOW IT HAS JUST BEEN CALLED OFF

The Demands of the Operators Were Refused, They Walked Out, and New Men Took the Vacated Places.

The strike of the Order of Railway Telegraphers against the Katy has been called off.

The general offices of the telegraph department of the road at Sedalia, has been notified to that effect by E. M. Alvord, general superintendent of the road, who received the notification from the executive officers of the O. R. T.

The O. R. T. strike was called on the Katy in 1904, the difficulty resulting from a disagreement over the wage scale and hours, says the Denison Herald. The company refused to accede to the demand of the operators, and they in turn refused to work under the scale which the company wished to pay.

In the general office telegraph rooms and in stations all over the system, the operators went out in one day and left the railway in a demoralized condition, and for months the company had difficulty in filling the positions of the strikers.

As usual, when strike breakers are sent to fill the places of experienced men in such positions, there was trouble. But gradually the new conditions became better, as the men became accustomed to the work. Incompetents were gotten rid of and better ones substituted until the Katy had a satisfactory telegraph service.

It is asserted by railway officials that the late general strike was in a way, the cause of this move on the part of the Order of Railway Telegraphers.

When President Small called his strike off the other day on account of lack of funds, it was admitted by him that the telegraph companies were too strong, and so it seems it was with the railway company.

There is much speculation as to how many of the old telegraphers will go back to the Katy, as many of them, if not all, have secured positions elsewhere. A few of the strikers are reported as having gone to work for the Katy, and it is probable that quite a number of positions will be filled, as there has always been a dearth of good operators.

FIGHTING THE BIG FINE

STANDARD'S ATTORNEYS ARE PLANNING FOR COMING BATTLE ROYAL.

THEY HAVE TWENTY FIVE REASONS

Which They Say Will Free Them From the Penalty of Millions Imposed By Judge Landis.

Chicago, Oct. 21.—Plans for the tremendous effort that will be made by the attorneys for the Standard Oil to have the $29,240,000 fine imposed by Judge Landis wiped out by the United States court of appeals were disclosed yesterday. Twenty-five main points, each one of which the attorneys will argue is sufficient cause to have the record-breaking fine declared void, will be advanced when the case comes to trial in January.

In attacking the constitutionality of the Elkins act and in contending that the passage of the Hepburn law made it unlawful to prosecute for violations of the repealed Elkins measure, the Standard's attorneys hope in the event of a favorable decision to furnish the basis for freeing the company from the numerous other suits that are pending.

WASHINGTON CITY IS THE PLACE

Kansas City Is Putting Forth a Herculean Effort and Feels Confident of Landing the Big Prize.

Washington, Oct. 21.—Formal announcement is made by Harry S. New, acting chairman of the republican national committee, that the committee will meet in this city December 6 and 7 for the purpose of deciding upon the place and time for holding the next republican national convention.

Vice Chairman New, who arrived yesterday, had a conference with Elmer Dover, secretary of the committee, when the time for holding the meeting of the committee was decided upon. The official call for the meeting will be issued within a day or two.

According to Mr. New, a number of cities have made formal application to secure the next convention, among them being Kansas City, St. Louis, Chicago, Denver, Seattle, Atlantic City and Pittsburg.

From Milwaukee and St. Paul also have come inquiries as to the prospects for securing the convention, but Mr. New said that at this time he was not committed to any particular city.

"The next convention is going to attract a larger number of people than have heretofore attended," said Mr. New, "and there are four considerations to be taken into account in deciding upon a place for holding the convention.

"The first is the accessibility of the town. It must possess adequate transportation facilities.

"Second, it must have ample first-class hotel accommodations.

"Third, it must provide a good hall, sufficient in size and susceptible of being arranged for the accommodation of the convention, and, further, it must possess adequate facilities for distribution of news."

WEARS A CLERICAL GARB

BY THIS MEANS MAN HAS BEEN ABLE TO SWINDLE SEVERAL PERSONS.

THE SCHEME A VERY CLEVER ONE

Stranger With a Bridal Couple Gets Signatures to Certificates, and Later Along Promissory Notes Bob Up.

Kittanning, Pa., Oct. 21.—Men wearing ministerial garb had better keep away from the farmers of Indiana county. About twenty wealthy residents of the county have been swindled on a game which is new and original in this section, if not in the country.

A man wearing ministerial clothes, and who says grace at the table and invites the family to join in evening prayer, has been going about among the farmers, and, being overtaken at night, has usually been invited to remain with the family. He has always selected the men who are known to have money.

Next morning, as the alleged preacher is ready to depart, a young man and woman ride up in a buggy and hurriedly ask where they can find a minister, as they are anxious to get married. The young man usually displays a roll of bills, and the visiting parson, trying to earn an honest dollar, offers to marry them.

After the ceremony the visiting minister asks the farmer if he will witness the marriage certificate, which the farmers have been doing. Later they are told that a promissory note is in the neighboring bank, and they are called to pay up.

W. B. Templeton, of Adrian, Indiana county, a wealthy farmer, has made a complaint to the Indiana authorities, to the effect that in this manner he was victimized out of $300, which he had to pay on what he thought was a marriage certificate, which proved to be a promissory note.

POSTAL OFFICE NOW OPEN

W. A. Keady in Charge—Two Western Union Messengers Return.

After being closed since August 12, the Postal telegraph office opened for business this morning, says Saturday's Denison Herald. The new manager is W. A. Keady, who hails from Missouri, where he has been connected with the Western Union the past fifteen years as an operator.

Mr. Keady says that when the strike was declared he walked out with the balance of the operators, but when he saw all of the old heads going back to work in the past few weeks he followed suit. The new manager came to Denison direct from Dallas with W. A. Logan, assistant superintendent of the Postal company, and he expects to bring his family here in the near future.

Two of the Western Union messenger boys, who went out with the operators when they struck last August, returned to work this morning.

This practically restores normal conditions in Denison.

DYNAMITE FOR HIS WIFE

JEALOUS GREAT BEND, KAS., MAN USED FUSE BOMB SUNDAY MORNING.

BEEN TROUBLE BETWEEN COUPLE

The Mother-in-Law, However, Got Her Daughter Out of the Hotel Before the Explosion and No One Was Injured.

Great Bend, Kan., Oct. 21.—In a jealous rage, E. E. Stacy tried to kill his wife with a dynamite bomb here Sunday morning. Stacy's mother-in-law saw her daughter's peril and pushed her from the room before the explosion. Stacy followed the women, striking at them with his fists. No one was injured when the bomb exploded, but some damage was done to the Valley house, the small hotel in which the bomb was thrown.

There was trouble in the Stacy family last summer and he finally took his two small children and went to Denver, where he secured work as a laborer. Soon afterward Mrs. Stacy went to Denver to live with him. A few weeks ago she returned to Great Bend. Stacy wrote several letters to her asking her to return, but she did not do so. He arrived here Sunday morning and went to the hotel, which is run by Herman Welch, Mrs. Stacy's father. Mrs. Stacy was staying at the hotel.

Stacy found that his wife was in the kitchen and he went there to talk with her. He insisted that she come into the parlor, where he had left his sachel, but she refused, so he went to the parlor and returned with a bomb under his coat. The fuse of the bomb was lighted when he threw it from under his coat. He rushed up to Mrs. Stacy and tried to put it into the bosom of her dress.

The only other person in the room at the time was Mrs. Welch. She knocked the bomb from Stacy's hand and shoved Mrs. Stacy out of the room into the yard. Stacy followed and struck both his wife and his mother-in-law. The explosion did not cause him to cease his attacks on the women, and he was arrested by officers who ran up to see what was the matter when they heard the bomb explosion.

The bomb was not a large one and did not do great damage to the hotel. A hole was blown in the floor of the kitchen several, windows were broken and a flight of stairs were shattered. Stacy was taken to the jail at once.

He did not discuss the matter further than to say that his wife had treated him badly and that it would be better if both were dead. It was rumored that he tried to kill himself after being taken to jail, but the jail authorities did not confirm this report.

The Stacys were married several years ago. It is said that Stacy has always been jealous of his wife, and they have not lived happily together. A brother of Mrs. Stacy is now serving a sentence in the penitentiary for trying to kill his wife several years ago. He used a revolver, and although he did not succeed in hitting his wife, he wounded several bystanders.

Mrs. La Belle told Sheriff Sprecher she came here to rent a small house and cook and do washing for the prisoners.

She claims to be a cousin of John Rockwell, "The Little Jew," but the authorities place little credence in her story.

UNIONS KILLING FRISCO

SCHWAB SAYS THEY MAKE REHABILITATION SIMPLY IMPOSSIBLE.

"THE WORD WITH THE BARK ON IT"

Abnormal Scale of Prices Must Be Reduced if City Is to Progress —Not to Close the Iron Works.

San Francisco, Oct. 21.—Charles M. Schwab addressed a large gathering of the most influential men of San Francisco at noon Saturday in the board room of the Merchants' Exchange. His subject was "San Francisco's Industrial Situation and Her Commercial Future."

The most important of the direct statements of Mr. Schwab was that after looking the ground over carefully he had decided to not only continue the Union Iron works, but to modernize that shipbuilding and structural plant at a cost of $1,000,000 or more and enlarge its capacity of output. This announcement threw his audience into a turmoil of hand clapping and cheers.

Mr. Schwab declared that the conditions of industrial warfare existent in San Francisco can not survive; that the unusual and abnormal scale of prices imposed for labor by the unions on capital in this city must fail; that confidence as between themselves and the integrity of the courts must be restored among the people of San Francisco; that he is not an enemy of organized labor, but is opposed to the way in which labor unions are administered today; that San Francisco "can not help succeeding," and that this city has before it a future greater in industry and commerce and in economical achievement than in the past.

After this address, Mr. Schwab, in reply to a question, asked the Associated Press to make for him the following statement:

"My recent criticisms regarding Nevada have been misunderstood. I have not and do not criticise the citizens of that state. My criticism were directed solely against the men who have brought the mines of Nevada to New York."

(Monday's Daily.)

The High school faculty and students are arranging to give an art exhibit in some vacant building on Ohio street, likely the one just north of Will Ramsey's racket, on Oct. 30 and 31 and Nov. 1 and 2. The Horace K. Turner Art company, of Boston, Mass., will furnish the exhibits.

An admission to view the exhibits, which will be reproductions of fine paintings and other elaborate works of art, will be charged and the proceeds derived from the affair are, according to the agreement, to be expended in purchasing pieces of art from the Turner company.

The "Sunbeam" Suspends.

With this issue the Smithton Sunbeam will become a publication of the past, writes Editor C. B. Collins in Friday's issue of that paper. For the past six months we have, owing to the lack of support from the people of Smithton, been losing money, and now in order that we may avoid further loss in equipping the office for winter, we have decided to discontinue with this issue.

TWO GIRLS ARE RUINED

ONE IS FIFTEEN YEARS OF AGE, WHILE THE OTHER IS ONLY THIRTEEN.

THE GERRY SOCIETY TAKES HAND

Girls Were Sent to a Reformatory, and Popular Actor and a Millionaire Are Threatened With Arrest.

New York, Oct. 21.—Angered over the delay of the authorities in acting in the case of his sister, Essie, Voecks, who was sent to a reformatory several months ago, Hugo Voecks, of No. 366 Third avenue, now says that he will apply for a warrant for the arrest of a comedian now starring on Broadway. He will also ask for the arrest of a man worth several million dollars, who has a magnificent estate in Great Neck, L. I.

The sister, Essie, who is now 13 years old, and Helen von Hagen, 15 years old, also in a reformatory, were sent away after they had told their story to the Gerry socteiy, into whose custody they were given by their families.

The girls alleged they had been induced by a young woman named May McKenzie to go riding with the actor, who is a prominent light comedian. He took them to the home of his millionaire friend in Great Neck and kept them there for two days.

When the girls were found the actor had left the city. He recenly returned for his annual Broadway engagement and since then the Voecks family have been endeavoring to have him arrested.

At the time of the incident, it is said, the actor's wife was in Europe, where was also the wife of the man who owns the estate.

The Gerry society, it is said, has been quietly perfecting the case against the actor, and for that reason has delayed making the arrest.

Lead Balloon

Blackmail, Says This Actor.

New York, Oct. 21.—Hugo Voecks, arrested on the complaint of Raymond Hitchcock, the actor, on a charge of blackmailing, was arraigned and held in $10,000 bail. Frank O. Tornberg, arrested with Voecks, was discharged, there being nothing to show that he had anything to do with the blackmailing.

Voecks said that Hitchcock had taken his sister, 12 years old, to the country home of William Astor Chanler and mistreated her. Both Hitchcock and Chanler say it is a clear case of blackmail. Voecks went to Hitchcock's rooms and was given money before concealed witnesses. When he took it he was arrested.

THIRD DAY OF SPLENDID MEETING

Miss Elizabeth Pearson, Who Has for Seventeen Years Served Most Faithfully, Was Re-Elected President.

The third day's session of the twenty-fourth annual meeting of the Des Moines branch of the Woman's Foreign Missionary society of the Methodist Episcopal church was called to order at 9 o'clock Saturday morning, the meeting being opened by prayer by Miss Josephine Leirs.

After the reading of the minutes of Friday's sessions, the reports of committees were received and the convention then took up the election of branch officers for the ensuing year.

The following were elected field secretaries:

Mrs. E. P. Fritz, Dubuque, Ia.; Mrs. Oner S. Dow, Garner, Ia.; Miss Fannie Meyers, Shenandoah, Ia.; Miss Kate Moss, Kansas City.

Following the election of the above officers, the conference district officers were elected, and after this the devotional hour was held, being in charge of Mrs. Vennard, of St. Louis.

Adjournment was then taken until 1:30 o'clock.

The afternoon session was opened at 1:30 o'clock and following devotional exercises, the reading of the minutes of the morning session was heard.

The memorial services were then begun, being in charge of Mrs. Matt S. Hughes, of Kansas City.

Eulogies of Mrs. Mary Porter Gamewell, Miss Susanna Stumpf, Mrs. Mary E. Orwig, Mrs. C. R. Taylor, Mrs. Loretta G. Tone, Mrs. E. O. Stanard and Mrs. Swem were delivered by the following, respectively: Miss Kate Moss, Kansas City; Mrs. Ella Pichereau, Fort Madison, Ia.; Miss Elizabeth Pearson, Des Moines; Mrs. I. C. Hodson, Carthage; Mrs. Waggoner, of St. Louis, and Mrs. Trimble, of Sioux City, Ia.

Intermingled with the eulogies was a vocal selection, entitled, "I Would Not Live Always."

After the conclusion of the memorial service, the reports of committees were received.

By request, Miss Daisy Wood sang "Does Jesus Care," after which the work of election was resumed.

By request, Mrs. Vennard, of St. Louis, gave a pleasing vocal selection, followed by a talk by Miss Pearson, who expressed sorrow at the removal of Mrs. Mary T. Thompson, of Des Moines, Ia., and Mrs. R. C McLaughlin, of Mapleton, Ia., from their present locations and out of Miss Pearson's district.

Mrs. Waggoner, of St. Louis, then extended an invitation to the convention to attend the first quarterly meeting of the year, to be held in St. Louis.

After this the report of the corresponding secretary was made. In it she reported the gift of $5,000 from Mrs. Knott, of Kansas City, for a new school in Vickerabad, India.

The convention then elected delegates and alternates to the general excutive committee meeting, to be held in Springfield, Ill., this week. According to the custom of permitting each conference to elect delegates at a certain convention, it fell on the Des Moines and St. Louis conferences to elect this year, the results following:

St. Louis conference choice, Mrs. J. T. Miller, of Kansas City, with Mrs. Ackert and Mrs. Waggoner, both of St. Louis, as alternates.

Des Moines conference choice, Mrs. Flora Dudley, of Bedford, Ia., with Mrs. W. H. Arnold, of Des Moines, Ia., and Mrs. William Stevenson, of Atlanta, Ia., as alternates.

Under the head of presentation of literature, the following resolution was offered and adopted:

Whereas, The Des Moines branch of the W. F. M. S., assembled in annual meeting, has great cause again for gratitude and rejoicing; therefore, be it

Resolved, That we have special reasons for thanksgiving, inasmuch as all obligations assumed one year ago have been more than met.

2. That we are grateful to our Heavenly Father that the health of our loved president and her coworkers has been continued, and we pray that their beautiful lives may long be spared to lead us on to other victories.

3. That we give praise to the Giver of all good gifts for the re-inforcement of those at the front, made possible by the consecration to the foreign service of the lives of Misses Esther Boddy, Josephine Lears and Alvina Robinson.

4. That we hold in high esteem the services throughout the branch of our returned missionaries, Misses Ogborn, Edwards, Elicer and Bobenhouse, together with those of the Misses Spaulding and Keyes, whose presence has been a source of inspiration.

5. That the devotional hours led by Mrs. Vennard have been a great spiritual uplift to every one present.

6. That we extend to President and Mrs. Lowe our grateful thanks for the pleasant time spent in visiting George R. Smith college.

7. We desire to express our appreciation of the systematic and successful manner in which the entertainment committee has cared for us during our stay. To the people of Sedalia, who have shown us such gracious hospitality. To the local press of the city for all courtesies extended. And especially to the pastor and his wife, Rev. and Mrs. Martin, whose cheerful and willing help contributed so much to the success of this meeting.

8. That with humble and grateful hearts we would ascribe glory and honor to God who has led us hitherto, and we enter upon one more year's work with strong faith in His promises, and the "trust which risks those things that are very precious."

MARY B. SNIDER,
SARAH T. HALL,
ELIZABETH SHANKLAND,
Committee.

Adjournment was then taken until 7:30 o'clock last night. Devotional exercises followed the opening of the meeting, and addresses were made by Mrs. Oner Dow, of Garner, Ia., and Miss Estie Boddy, of Sioux City, Ia.

GRIP FELL ON HER HEAD

Higbee Lady Injured While Riding on Train.

A lady whose home is near Higbee was seriously injured on a Katy passenger train soon after it left Moberly Saturday evening, says the Boonville Democrat. The train was crowded, and a traveling man had stowed his sample case away in a hat rack in the car.

The lady occupied a seat directly under it, and the motion of the car caused it to fall. The metal corner on the sample case struck her on the head and rendered her unconscious.

She was carried on to Higbee, where, it is said, an examination was made and it was found that her skull had been fractured.

OBSTINATE ULCERS

MAY LEAD TO CANCER

There is no difference, at first, in the appearance of a cancerous and a common ulcer, and for this reason every sore that is obstinate or slow in healing should excite suspicion, for the sore is nothing more than the external evidence of a polluted blood, and if allowed to remain may degenerate into Cancer. Efforts to heal the ulcer by means of salves, plasters and other external remedies always result in failure, because such treatment can have no possible effect on the blood, where the deadly germs and morbid matter form, and are carried through the circulation to the place. No sore or ulcer can exist without a predisposing internal cause, and the open, discharging ulcer or festering old sore will continue to eat deeper into the surrounding flesh as long as a polluted, germ-infected circulation discharges its impurities into it. S. S. S. goes to the fountain-head of the trouble, and drives out the germ-producing poisons and morbid impurities which keep the ulcer open. Then as this rich, purified blood goes to the diseased place the healing begins, all discharge ceases, the inflammation gradually leaves, new tissue and healthy flesh are formed, and soon the sore is permanently cured. S. S. S. is made entirely of roots and herbs of a healing, cleansing nature, and unlike mineral medicines, which often do great damage to the delicate parts of the system, S. S. S. tones up every part of the body. Book on Sores and Ulcers and any medical advice desired free.

THE NEW IDEA

THE ORIGINAL

The Red Clover Blossom and the Honey Bee on Every Bottle.

"A Cold or a Cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Nearly all other cough cures are constipating, especially those containing Opiates. Kennedy's Laxative Honey and Tar moves the bowels, contains no Opiates.

KENNEDY'S LAXATIVE CONTAINING HONEY AND TAR

Relieves Colds by working them out of the system through a copious action of the bowels.

Relieves Coughs by cleansing and strengthening the mucous membranes of the throat, chest, lungs and bronchial tubes.

TRIPLETS TOO MUCH

Cavanaugh, Father of Fourteen Kids, Took to the Woods.

Bloomington, Ill., Oct. 22.—When the stork left triplets at the home of John Cavanaugh in Marshall county, Cavanaugh took to the woods and has not been seen since.

Cavanaugh was a hard working farmer and endeavored to give his family all the comforts possible. When the stork brought the eleventh child to his home he believed that the number fully entitled him to membership in the anti-race suicide club, and when the bird delivered triplets, increasing the number of his children to 14, he decamped, first turning his oat crop into cash.

The neighbors rallied to the assistance of the mother and an effort will be made to induce the father to return.

Marion, O., Oct. 22.—Although a self-confessed bigamist, John H. Kline was fined only $25 and costs and given his freedom in the mayor's court here, after pleading guilty to another charge.

The evidence showed he had married Miss Julia Hunter at Mt. Vernon when he had a wife with nine children at Van Wert. Neither wife would prosecute, however, and the authorities were indifferent. Wife No. 2 paid the fine and costs.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness—nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden tiny little nerve that really is all at fault. This obscure nerve—the Cardiac, or Heart Nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the Heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing Hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help.

If you would have strong Hearts, strong digestion, strengthen these nerves — re-establish them as needed, with

Miss Nell Smith, who has been traveling in Europe for the past four months, is in New York and is expected home soon.

Mrs. W. W. Shafer and children left Saturday for their new home in Windsor, Dr. Shafer having preceded them several days with the household goods.

Gustin Smith, of Houstonia, was in town Thursday in his new automobile. A number of his friends here were favored with a ride.

Mrs. Henderson Bowman and son went to St. Louis Thursday, where they will spend some time with friends.

Miss Myrtle Smith, of Dunksburg, spent a part of last week with Sweet Springs friends, before going to Kansas City for the winter.

Mrs. Fred Renshaw returned to her home in Tipton Wednesday, after a delightful visit with Miss Bess Nelson.

Miss Gem Binkley spent Saturday and Sunday in Bunceton, where she was the guest of a schoolmate.

T. G. Nelson went to St. Louis Saturday night for a short visit with Mrs. H. L. Paul. Mrs. Nelson, who has been visiting there, will accompany him home.

Mrs. C. K. Smith, of St. Louis, is visiting at the home of her mother, Mrs. Sarah Owens, on Bridge street.

I. T. Andrew came in Monday night from Carmen, Ok., for a short visit with friends here, returning to Carmen Thursday via Kansas City, where he visited Miss T. C. Andrew.

T. L. Price, of Jefferson City, was a visitor here last week, looking after his interests here and his farm in Pettis county.

Mrs. A. W. Willis, of Higginsville, was the guest of her daughter, Mrs. S. C. Neale, a part of the week.

A number of Sweet Springs people went to Kansas City this week to attend the American Royal stock show, some of whom were: E. L. Spurgeon and wife, Mrs. Jennie Payne, Sam Lynch, J. H. Coulter, Leo Burfeind, T. C. Berry, Jeff Smith and R. B. Johnson.

R. P. Gordon and wife, of Callas, Mo., father and mother of Mrs. J. C. Winders, were called here this week by her illness and death.

The body of O. B. Dooley, who died in St. Louis Oct. 13th, 1907, was brought here Wednesday for burial in Fairview cemetery. The deceased was in the 76th year of his age and was at one time a resident of this city. A number of relatives accompanied the body to this place, among whom were Major W. H. Dooley and J. H. Dooley, of Warsaw, who are well known here.

On Friday afternoon of last week a delightful meeting of the Whist club was held with Mrs. C. L. Jones. Each meeting of this organization is enjoyable, and ones presided over by this gracious hostess are particularly so. On this occasion just the club members were present and a few out-of-town guests. At the conclusion o fthe game Miss Gem Binkley was found to have scored highest and was awarded the prize. Delicious refreshments were served, and the afternoon was in every way a credit to the hostess.

The initial meeting of the Priscilla club for the season was held Friday afternoon with Mrs. John Goggin, in compliment to her visitors, Mesdames Newton and Vance, of Marshall. The hospitality of this home is known and appreciated by all Sweet Springs people, and Mrs Groggin and her daughters excelled themselves on this ocasion in their efforts to make this first meeting pleasant. A dainty lunch was served, which completed a delightful afternoon.

Miss Bess Nelson was hostess to the card club of which she is a member, and a number of invited guests Tuesday afternoon, in honor of her cousin, Mrs. Fred. Renshaw, of Tipton. The capable hostess and her mother have an enviable reputation as sucessful entertainers, and a function in their home results in a pleasant afternoon for each guest. This one was especially appreciated, owing to the opportunity afforded of meeting the charming guest of honor. Mrs. Ed Reavis and Mrs. R. W. Burkhart scored highest, Mrs Reavis winning the prize on a cut. Mrs. Renshaw was given the guest prize. Miss Nelson, with the assistance of Miss Elizabeth Goggin, served a delicious lunch, which still further emphasized her capabilities as a hostess.

This entire community was saddened Thursday morning by the death of Mrs. Winders, wife of Prof. J. C. Winders. This estimable couple had not been residents of this city long, but they had gotten next the hearts of all so fortunate as to know them. It seems inexpressibly sad that death should come to this home just when life was made brightest by the birth of a son, and all the sympathy of human nature goes out to the bereaved husband, father and mother.

Mrs. Winders, whose maiden name was Maud Gordon, had lived in Calloa, Macon county, Mo., all her life, until her marriage to Prof. Winders nine years ago. She was a member of the Christian church, and her memory is a constant benediction to all who knew her.

Brief funeral services were held at the residence at 7 p. m. Thursday evening by Rev. J. C. Schackleford before the departure of the family with the body for C a. Many beautiful flowers were presented by Prof. Winders' co-workers, the ladies of the C. W. B. M. and other sympathetic friends.

SWINDLE THAT FAILED

A Bank Cashier Ordered $15,000 Shipped By Express.

Sandusky, O, Oct. 22.—A strange young man, dark and fairly well dressed is sought by the police.

Telegrams are going out in every direction. He entered a telephone booth at West house, and, saying that he was Fred P. Zollinger, cashier of the Third National Exchange bank of this city, ordered $15,000 shipped by the Lake Shore express from the First National bank at Cleveland, the local bank's correspondent.

The money was put up in packages for sending, but it was learned that the train specified did not carry express, and Cashier Zollinger was so notified. Then it was that the deception was discovered.

CHUM OF HER GIRLHOOD

WON THE LOVE OF MRS. ANNA McBRIDE'S HUSBAND IN ST. LOUIS, MO.

HAS TWO "AFFINITIES" ARRESTED

A Requisition Is Asked for Sewing Machine Man and Dressmaker —Picture of the Latter in His Watch.

St. Louis, Oct. 22.—Mrs. Anna McBride, of 3135 New Ashland place, asked for requisition papers Monday for her husband and Miss Lena Lindert, her schoolmate, whose arrest she caused in Fort Worth, Texas. They have applied for writs of habeas corpus there and will fight being brought back to St. Louis to face the angry wife.

Twenty years ago Mrs. McBride and Miss Lindert were deskmates and chums at the German Lutheran school at Caroline and Ranken streets. Their friendship continued long after their school days, but at the time of Mrs. McBride's marriage, four years ago, they had lost sight of each other.

James A. McBride, a sewing machine agent, won his present wife's love when he sold her a machine, and they were married six months later. For two years they lived in Webster Groves, then moved to 1046 West Park place, St. Louis.

Mrs. McBride, a slender, dark-eyed woman, told a reporter yesterday that her married life was happy until they came to the city. She met Miss Lindert on the street, and their school day friendship was renewed. Miss Lindert called at the Park place home and was introduced to McBride.

The discovery of Miss Lindert's picture in the back of McBride's watch case some months later aroused his wife's suspicions, but she said nothing to him. From her back porch she could see Miss Lindert's home at 6302 Spencer place, and she watched it, sometimes sitting up until 1 o'clock in the morning, she says. Her husband was a frequent caller at the Lindert home.

December 28, last—Miss Lindert's 30th birthday—Mrs. McBride caused her arrest with McBride at Clayton. On his promise that he would be good, she dropped the charge she had brought against him, after he had been bound over to the grand jury and had spent six months in the Clayton jail.

Last September McBride disappeared, and his wife learned that Miss Lindert was also out of the city, but she was not able to find out where either had gone. She had then moved to the New Ashland place address, where she bought a grocery, and the entire "place" was agog over McBride's disappearance.

Miss Ida Heiszell, of 3138 New Ashland place, volunteered to help the deserted wife, and she went to Miss Lindert's home, where, under pretense of wishing to have a dress made, she learned that Miss Lindert had established a dress making business in Fort Worth.

Ths information enabled Mrs. McBride to find her husband, and he was arrested with Miss Lindert Sunday. They had been in Fort Worth a month, having gone there from Jefferson City. Mrs. McBride says she will have them brought back to St. Louis and prosecuted at whatever cost.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

OFFICIALS SOON TO GO?

'TIS SAID MISSOURI PACIFIC STAFF WILL EARLY BE REORGANIZED.

WHY THE TRACKS NEED REPAIRS

General Manager Sullivan and Chief Engineer Byers Are Accused of Trying to "Make a Showing.

St. Louis, Oct. 22.—It is beginning to be understood in railway circles here that upon his return to the United States George Gould proposes to effect a complete reorganization of his executive staff, which now controls the Missouri Pacific, Iron Mountain and other leased, operated and independent lines.

There is a good deal of uneasiness about the executive offices of the railway company, and it is apparently with good cause. It is gossiped that General Manager A. W. Sullivan and Chief Engineer Byers, who is head of the department of maintenance of way, are to be the first to go. From the gossip here it is to be guessed that there are men high in the Missouri Pacific organization who will not regret their departure.

The probability of the removal of these two officials, together with a few others, grows out of the recent agitation for better and safer railroad tracks. The Missouri Pacific has borne the brunt of this fight. Whether it is true or not that the Missouri Pacific is in worse condition than other roads, a good deal of evidence has been produced to show that its tracks are by no means in the condition they should be.

The charge which has been made against the general manager and the chief engineer is that they have been sacrificing everything in order to make a showing.

George Gould has spent much of his time in Europe. It is said that a man who in the past few years has come to be known as Gould's adviser in Wall street has exerted his influence to keep Gould in Europe. It is known that neither his confidential man in the east nor Sullivan nor Byers desire the immediate return of Mr. Gould from Europe.

It has been hoped by a part of the Missouri Pacific executive staff that Mr. Gould's return would be delayed until the storm which has arisen over unsafe tracks has blown over. Now that it appears that this storm refuses to down, it is a foregone conclusion among railroad men that there will be a great chopping of official heads when the controlling stockholder of the Gould lines returns to the United States.

It is reported that Mr. Gould proposes to come west as soon as possible after his arrival in New York to have a look at the Gould lines for himself. Whether this report is made authoratively or not, it is pretty safe to guess that this is what Mr. Gould will do.

Railroad men say that in this event there is little chance of Sullivan and Byers remaining. There are two factions in the Missouri Pacific management at this time, the Sullivan and Byers faction has been known among railroad men as theorists. The other, which claims that it is the "practical," has not had much to say about the management of the road, and is eager for the chance. It remains to be seen whether Mr. Gould will give this faction an opportunity to show what it can do toward putting the tracks of the Missouri Pacific in good condition.

Railroad men say that before the Missouri Pacific can again hold the confidence of the traveling public, some of the higher officials must go. This may point to Sullivan, but it undoubtedly points to Byers. Byers is blamed more than any other man for the track troubles of the system. He has proved very unpopular with his subordinates, and this may account for a part of the criticism of his methods.

It is claimed, however, that Byers has been responsible for the alleged disorganization of the maintenance force of the railway. It is also claimed that he has burdened the system with hundreds of inexperienced and incompetent men, who have interfered more or less with the work of the roadmasters and division superintendents.

He is known as an official who is fond of blueprints, requisitions and "experts" who are not expert. One notable example of the kind, of which Byers is said to be responsible for is a series of additional switch tracks laid a few years ago in Kansas City. These switch tracks are the butt of the jokes of all the "practical" men of the system. Ask almost any one connected with the maintenance of way department of the Missouri Pacific about the Byers switch tracks in Kansas City, and unless he be a close friend of the chief engineer he will laugh.

No Verdict in Rape Case.

Nine of the jury in the Granville Allison case, charged with raping Miss Minnie McAfee, of Centralia, voted for conviction and three for acquittal, says the Columbia Herald. The three voting for acquittal were: Joel Bradford, Henry Lowery and Sam Miller. The jury was thirty-six hours in rendering a verdict of no agreement.

DR. TITSWORTH TO LEAVE

HE WILL RESIGN WITHIN FEW DAYS AS CORONER OF PETTIS COUNTY.

GOING SOON TO VIENNA, AUSTRIA

Will Spend a Year at the Austrian University, Taking Specail Course —His Future Movements Not Yet Decided.

(From Tuesday's Daily.)

Dr. Guy Titsworth, coroner of Pettis county, and a physician with one of the largest clientages of any of the younger physicians of the city, has given up his practice in this city, and Thursday night leaves for a few days' visit in St. Louis, after which he goes to New York, and on Nov. 2 will sail for Vienna, Austria, where he will enter the Austrian University to take a year's course in the treatment of the eye, ear, nose and throat.

Dr. Titsworth will visit at Hamburg and Berlin en route to the University, and expects to enroll in the school about the latter part of November.

Dr. Titsworth will tender his resignation as coroner either tomorrow or Thursday, and a successor will likely be named at the next meeting of the county court.

Dr. Titsworth's rooms in the Hoffman building, which will be vacated tomorrow, will be occupied hereafter by Dr. W. G. Cowan, who occupies apartments on the same floor now.

After the completion of the year's course Dr. Titsworth will return to America, but he has not definitely decided where he will locate, although it will likely be in one of the western states.

Dr. Titsworth has served two terms as coroner of this county, being elected on the republican ticket, and his popularity can be attested by his books, which show that during his three and one-half years' residence in this city he has held one of the largest practices of any of the younger physicians, and that, too, with a success that will soon establish for him a reputation wherever he may decide to locate after he has finished his post-graduate course.

HELD ON A $1,000 BOND

A. H. HALL, WHO HAS CONFESSED THAT HE IS GUILTY OF BIGAMY CHARGE.

THE CASE COMES UP NOVEMBER 4

Wife No. 2 Departed Saturday Afternoon for the Home of Her Parents at Finley, Dyer County, Tenn.

A. H. Hall, who confessed to being a bigamist when served with a warrant on that charge by Sheriff Sprecher Friday morning, was arraigned for a preliminary hearing in Judge Leaming's court at 10 o'clock Saturday morning.

Attorneys Lynch and O'Bannon represented Hall, who waived the reading of the information and also his preliminary examination.

Judge Leaming held Hall to the criminal court, and fixed his bond at $1,000, in default of which he was remanded to the county jail.

The court room was well filled with spectators. As Hall's first wife, accompanied by a lady friend, appeared in court the defendant arose, and, walking towards her, started to speak to her.

He was repulsed immediately by Mrs. Hall, who commanded him to stay away from her. She said she would see that he got his deserts in the case, and she did not want to have anything to do with him.

Mrs. Hall No. 2, in signing a bond to appear as a witness in the case, signed her name "Lou Etta Hall," as if she was really Hall's legal wife.

It is said that Hall and wife No. 2 had arranged to leave Sedalia at an early date, the husband and father deserting his true wife and their two little daughters.

The second Mrs. Hall, who admitted marrying Hall and living with him after she knew he was married already, and was the father of two children, accompanied by Constable Reasons, departed for her home in Dyer county, Tenn., last afternoon, but will return here the early part of November to testify in the case against Hall on Nov. 4. She left Sedalia because Mrs. Hall No. 1 told her she could not live in the same house with her.

First Mrs. Hall Forgives.

Saturday evening Mrs. Hall's attitude toward her husband had changed completely. Saturday morning she refused to allow her husband to address her in the court room, saying she would see that he got just what he deserved, and as late as 3 o'clock Saturday afternoon this feeling still prevailed, she vowing she would not allow him to escape for the terrible injury done her. At 6 o'clock all was different. A reconciliation had been affected, the wronged wife was at the jail with her husband. Mr. and Mrs. Hall were together nearly an hour, and embraced each other affectionately and frequently.

A Democrat-Sentinel representative called at the Hall home on South Lamine street, reaching there just as Mrs. Hall was returning from the jail. She at first refused to make a statement, but was finally persuaded and willingly talked of the case, apparently withholding nothing. She said she had decided not to prosecute her husband, as she did not believe he was entirely to blame, and seemed to place all the fault on the Tennessee wife.

"Then, again," she continued, "he is the father of our two children, and for their sake I am going to try to have him freed. No, I shall not appear against him again as a prosecuting witness."

How Dual Life Was Exposed.

Mrs. Hall at this juncture turned upon a young man by the name of Earl Yankee, who has been in Mr. Hall's employ since he opened his billiard parlors.

"If it hadn't been for this fellow, Yankee," she said, "my husband would probably never have been arrested."

"Did Mr. Yankee 'give him up' was asked.

"Yes, he tipped the whole thing off," said Mrs. Hall. "He had been corresponding with a sister of this woman (Mrs. Hall No. 2) and told of Hall having two wives in a letter to that sister."

She then scored Yankee bitterly, and censured him in the strongest terms for telling.

"He ought to be behind the bars himself," she said. "Why, he was mixed up in the affair almost as bad as my husband. Then, too, he might have shown some gratitude for what my husband has done for him. He has kept him employed constantly, and has favored him in more ways than one."

The Insanity Plea.

Mrs. Hall was then asked what her husband thought of his predicament, and as to his reasons for marrying the second time.

"Well," she said, "I don't believe my husband knew what he was doing. He asked me at the jail what he had done, and that it all seemed to him like a dream. My husband has not been himself for a long time. He has been delirious at times, and sometimes I am inclined to believe that his brain was affected by the attack of typhoid fever he only recently recovered from. I believe now that he did not know what he was doing when he married the Tennessee girl."

Girl Was the Shrewdest.

Mrs. Hall then related how her husband and the girl deceived her after they got under the same roof and made the assertion that the girl was much more clever than her husband, and believed that it was through her shrewdness that her husband was persuaded to marry her,

"I am satisfied in my own mind now," said Mrs. Hall, "that my husband answered this girl's advertisement more to have a little fun than anything else, just as men sometimes do, and that the girl trapped him. It's not the man's fault in half of these cases you read about It's the woman's. A man is not going to address a woman unless she gives him a cause You're a man; you know that Ain't it true? Well, it's the same here in in this case, and I intend to stay by my husband to the last. If I had $50,000 I would lay it right down there at that jail door for my husband to use to get free.

"You can just say that this declaration is final, and that I will do all I can to get my husband out of this trouble."

The reconciliation between Hall and his wife is said to have been accomplished by a Green Ridge friend and partner in business with Hall.

Mrs. Hall felt confident last evening of getting bond for her husband before another twenty-four hours rolled around and said she already had the assurance of half of it, with good prospects of getting the other $500 secured. She hopes to have her husband at home sometime today.

Yankee Admits He Told.

Earl Yankee, when seen, said he did report the case to the second Mrs. Hall's sister, telling her that Hall was a married man with two children and was proud of the fact that he was responsible that the arrangements into which Hall had entered were broken up.

WAS BITTEN BY A DOG

Treated at the Pasteur Institute in Chicago.

J. P. Legg and wife returned Tuesday night from a few days' visit to Dode Adamson and wife near Montrose, the ladies being sisters, says the Calhoun Courier. Mr. Adamson recently had an experience that he would not like to undergo again. Readers will remember the death from hydrophobia of John Calhoun at Nevada a couple of months ago, whom it required several men to handle.

The deceased had at one time been employed by Mr. Adamson, who thought a great deal of him, and was beside him in his final paroxysm, assisting to control him.

In trying to tie the unfortunate victim, Mr. Adamson received a slight scratch, upon which saliva fell. Nine days thereafter he had a chill, and in eighteen days another. Fearing consequences, he went to Chicago and entered the Pasteur institute for treatment. The physicians said he came in the nick of time. He returned home September 29, and says the Pasteur treatment is the only safe guard against hydrophia—the mad stone being a myth.

Patient Returned Home.

Mr. R. E. Maupin, who has been at Maywood hospital for the past two weeks, undergoing treatment for appendicitis, was able to leave the hospital and return home Monday. An operation was not necessary, and Mr. Maupin was fully recovered when he left Maywood.

THE MAGILLS ARE FREE

COURT ROOM BROKE INTO PROLONGED CHEER AT VERDICT.

THE JUDGE ORDERS AN ACQUITTAL

Magill's Daughter and Mrs. Graham Weep Under State's Denunciation—Friends Overwhelm the Couple.

Decatur, Ill., Oct. 19.—Cheers, prolonged and loud, shook the dignity of the court at 5:30 o'clock yesterday afternoon when the jury in the case of the people vs. Fred Magill and Faye Graham Magill returned a verdict of not guilty of the murder of Pet Magill.

The court bailiff has only one arm and nearly lost that in his vain attempt to restore order. Judge Cochran was indignant and when he managed to make himself heard he remarked that another demonstration of that kind in his court would call forth some very severe punishment. Court was at once adjourned and the crowd at once flocked around the defendants and shook them by the hand.

The jurors filed past the pair and also shook them by the hand. To those who had followed the case closely from day to day the verdict was eminently satisfactory, and it is generally conceded that the state failed utterly to prove a case.

Immediately upon the close of the case the crowded court room knew what the verdict would be. The last bitter words of denunciation had scarcely fallen from the lips of State's Attorney Miller of De Witt county, when Judge Cochran began to speak.

The crowd settled down to listen to the customary long and technical instructions of the court, but sat up and took notice after first sentence. Judge Cochran said:

"You are instructed that, although the people have proven beyond a reasonable doubt the death of Pet Magill, yet you are further instructed that the people have introduced no evidence in this case tending to show a criminal agency on the part of defendants, or any other person, as to the cause of her death; and this being the condition of the proof, the people have failed to prove what is called the corpus delicti, and it therefore becomes your duty to find the defendants not guilty. You will, therefore, find a verdict of not guilty in this case."

Ten minutes later the jury was back in court with the verdict, and then occurred the demonstration for the defendants. It was noticeable that when the jurors was asked if this was their verdict three of them did not answer by nodding. At least one of them told State's Attorney Miller, of De Witt county, that he would not have signed the verdict under and other circumstances thna instructions from the court.

State's Attorney Miller had nothing to say, except that he had gathered all the evidence he could find and made out the best case possible. He is not yet convinced that the court or the jury was correct in giving a verdict of acquittal.

At the Decatur hotel the Magills had another levee. Magill was about the hotel office and quietly received the congratulations of those who offered them. To a reporter he said:

"We shall return to Clinton Saturday and will be there for a few days. Then we shall come back to Decatur to make our home. Of course, I expected nothing else but a verdict of acquittal. There could have been no other just verdict, because we were absolutely innocent of the awful charges against us. I have no other plans for the future beyond coming here to live. I don't know what I shall engage in."

Magill's one time fortune of $500,000 was reduced to about $400,000 prior to his trial, and the expense he has had in defending himself has doubtless but little of that.

Just before the arguments began yesterday the defendants moved that the court instruct the jury to return a verdict of not guilty, but the court declined and ordered the state to proceed. State's Attorney Redmond, of Macon county, Lon Herrick, of Clinton, and State's Attorney Miller, of Clinton, spoke for the prosecution. Attorneys Marshall, Griffin, John Fuller, and Col. Dick Lemon spoke for the defense.

None of the attorneys for the prosecution measured up to their standard, while the defendants' attorneys were all brilliant in their plays for sympathy on the jury and their denunciation of a prosecution which they insisted was founded on the gossiping tongues of old women and the busybodies of a small town.

During the bitter arraignment of the defendants by the state Mrs. W. W. Graham and Marguerite Magill broke down and their weeping could be heard throughout the court room. Again, when Marshall Griffin pleaded for the good names of the accused the two women gave way to their feelings.

Faye Graham Magill tried to comfort and soothe her mother and stepdaughter, but with her husband sat with drawn features and accepted the lashings of the state without a visible show of emotion.

Judge Ingham, of the defense, is now credited with the most brilliant piece of work during the trial in securing the exclusion of the fake letter shown by the prosecution to witnesses for the defense. It was dangerously clever in its imitation of the handwriting of Pet Magill and it unquestionably would have played havoc with the finding of the jury.

Popular Sedalia Young Man Brings Iowa Bride Here.

L. C. Tallman, jeweler at Bichsel Bros., who was recently wedded to a popular young lady at Ames, Ia., and bride, returned home Thursday night last to reside and make this city their home. Mr. Tallman has secured a neatly furnished cottage on Prospect avenue.

Soon after the return of the married couple young friends of Mr. Tallman proceeded to the couple's home, where they decorated it "sumptuously" for the reception of the bride and groom.

Tricks of every description and class were planned for the married couple, and caught them just as desired, and furnished abundant amusement for the innocent prank players, who were on the scene to witness the arrival of the couple.

FIRE IN A THEATER

Audience Files Out While Firemen Extinguish Blaze.

St. Louis, Oct. 21.—During a performance Saturday night at the Columbia theater fire broke out in the roof. From the stage the audience was requested to quietly pass out without delay, but to do so without disorder. The surprised people obeyed, and the theater was soon cleared.

On the outside those who had come out of the theater saw firemen extinguishing the small blaze. No one was hurt in clearing the theater. As the fire occurred near the end of the performance, the theater was closed for the night.

ANOTHER BOODLE CASE

TWO ST. LOUIS ALDERMEN ARRESTED AND INDICTED SAME NIGHT.

TRAPPED WITH THE MARKED BILLS

Were Taken Into Custody on the Floor of the House Immediately After Ordinance Paid for Was Passed.

St. Louis, Oct. 19.—Five marked $100 bills, given by Circuit Attorney Sager to Henry Ascher, of 5011 Delmar boulevard, were the bait in the trap set for Delegate Ferd Warner, of the Second ward, and Delegate F. W. Priesmeyer, of the First ward who will be given a preliminary hearing before Judge Rodgers today on indictments charging them with bribery.

The indictments followed their arrest in the chamber of the house within fifteen minutes after the marked bills in an envelope so it is charged, had been passed to Delegate Priesmeyer in the washroom in the north end of the corridor on the second floor of the city hall last night.

Neither Priesmeyer nor Warner would make any statement when seen today by a reporter. The grand jury under the direction of Circuit Attorney Sager, will now devote its entire time to investigating the house of delegates in connection with the delays of the asphalt paving bills, the bill for a public utilities commission and other important legislation.

Sager has been planning for weeks to catch Warner, who is chairman of the public improvements committee of the house, and has the power as one of the leaders of the combine, to kill or pass any bill referred to his committee.

Warner and Priesmeyer were arrested immediately after a bill granting Ascher the right to build and maintain a garage on the rear of 5011 Delmar boulevard had been reported out of the public improvements committee and passed.

They were conducted to the circuit attorney's office and ushered into the grand jury room. Ascher had preceded them and had related to the grand jury the details leading up to the climax in the house of delegates chamber.

Ascher had constructed the garage without having first obtained the necessary ordinance and authority from the building commissioner. A suit had been filed against him in the police court for violation of city ordinances. Six weeks ago he caused to be introduced in the house of delegates an ordinance granting him the authority to erect and maintain the garage. This was referred to the public improvements committee, where it was held up for several weeks.

Here is the story of what subsequently happened, as given by the circuit attorney's office:

Ascher, finding that he could not get the bill passed by the ordinary methods, entered into negotiations with Chairman Warner. These negotiations reached a point yesterday where Ascher went to the circuit attorney's office and received from Circuit Attorney Sager five marked $100 bills in a sealed envelope. Ascher went to the chamber of the house of delegates and there met Warner. The two men stepped into the corridor of the city hall. Ascher appeared to be very much excited about his bill. He told Warner that the city's suit was coming up against him in a few days and that he would be subject to a fine.

According to the circuit attorney's office it had been arranged several days ago in Warner's saloon that the bill would be passed Friday night, provided Ascher paid $500.

This meeting between Warner and Ascher was at 7:30 o'clock. Ascher, it is alleged, told Warner that he was ready to pay the $500 to have the bill passed. At this time the two men were standing immediately in front of the door leading to the clerk's office of the house of delegates. According to information given out at the circuit attorney's office Warner said to Ascher:

"Do you see that man standing there by the clerk's desk? I will step inside and speak to him. When he comes out you follow him and hand him the money."

Warner entered the clerk's office and spoke to Priesmeyer. In a few minutes Priesmeyer stepped out and walked north in the corridor to the washroom. Ascher followed. Inside of the room Ascher handed Priesmeyer the envelope, and Priesmeyer, it is alleged, took it and placed it in his pocket. Both men left the room immediately, not a word having been spoken.

Priesmeyer returned to the chamber of the house of delegates and Ascher went to a telephone and notified Circuit Attorney Sager that the money had been paid. The circuit attorney's detectives were sent to the city hall with instructions to arrest Warner and Priesmeyer as soon as the bill was passed.

Ascher went to the gallery of the house. Within fifteen minutes after the money is alleged to have been paid the garage bill was reported out of committee with some improvement bills from Priesmeyer's ward and passed.

Then followed the dramatic scene in which the two members were arrested in their seats in the house, taken to the Four courts and indicted.

After Ascher's bill had been introduced in the house of delegates he went to see a friend of his who had been reported to have some influence with the house of delegates. The friend told Ascher he believed he could get the bill through. Subsequently the friend reported that he could do nothing and that Ascher would have to go to Warner. After the bill had been in the pigeon hole of the public improvements committee for two weeks Ascher went to see Warner. The circuit attorney's office says that Ascher was informed by Warner that there was a great deal of important legislation pending and that little bills would have to await their turn.

Two or three weeks passed and in the meantime Building Commissioner Smith had filed the suit against Ascher. This is a quasi-criminal proceeding, the penalty being a fine of $500.

Subsequent to the filing of the suit Ascher saw Warner again. Warner is said to have told Ascher that he was not the entire house of delegates and that he had so many things to attend to that he could not get around to the garage bill. Ascher had another interview with Warner about the middle of September. He had been told by a friend that the bill could not be passed without the payment of money, and when he next saw Warner he was informed that there was "nothing doing for him at all."

He was given no explanation as to why the bill was held up. Matters had now reached a point where Ascher felt it was his duty to inform the circuit attorney of the situation. He had a friend write a letter to Sager, and the circuit attorney sent for Ascher. That was three weeks ago. It was then planned to set the trap for Warner and see if he would fall into it.

Ascher again went to Warner, and, according to the circuit attorney's office, said that as he would be fined $500 by the city for erecting the garage without authority, he would be willing to pay that amount of money to have the bill passed, as he believed the passage of the bill would result in the dismissal of the suit. Several conferences between Ascher and Warner were held, it finally being agreed that Ascher should meet Warner in Warner's saloon at 2523 North Broadway last Tuesday. There the agreement was made, according to the circuit attorney's office, for Ascher to pay $500 for the passage of the bill.

Warner is said to have told Ascher that he would call him up between Tuesday and Friday and let him know whether everything was all right. Ascher was not notified by Warner. After a conference with Sager it was decided that Ascher should go to the house of delegates with the marked bills in his pocket, prepared to carry out his part of the agreement.

ALLEGED THREAT TO KILL

Engineer Ben Myers Was Arrested This Forenoon.

Ben Myers, a Missouri Pacific engineer, was arrested by Constable Love this morning, charged with threatening to kill Mrs. Nannie Whiting, wife of James Whiting, a bricklayer employed by Tom Johnson.

MORE WORRY IN WALL ST.

PRESIDENT OF KNICKERBOCKER TRUST CO., OF NEW YORK, FORCED TO RESIGN.

HAS SIXTY MILLION IN DEPOSITS

Late Official's Connection With Other Concerns Made Excuse for His Retirement—After Long Conference Statement Issued.

New York, Oct. 22.—There was considerable nervousness here today in financial circles as the result of developments concerning the Knickerbocker company. The news that the National Bank of Commerce had given notice that it would decline to act as clearing house agent for the Knickerbocker, and the resignation of Chas. T. Barney of the presidency of the latter, served to unsettle things more than the Morse-Heinze developments of last week.

The magnitude of the business transacted by the Knickerbocker Trust company, with its deposits of more than sixty millions, gave a much more serious aspect to the changes made in its management than did the changes in the relatively smaller Morse-Heinze concern.

The announcement of President Barney's resignation was immediately followed by a series of conferences of financial men, which lasted till 2 o'clock this morning. J. Pierpont Morgan took a leading part in the discussion, and when the meetings broke up the directors of the Knickerbocker Trust company issued a statement which stated that Barney's outside interests having become greatly extended, in particular because of his position with some of the Morse companies, he had decided that the best interests of the company would be served by his resignation from the Knickerbocker, although he had no loans with that company.

It is also stated that he would resign as a director of the Knickerbocker as well as a director of the National Bank of Commerce. The statement continues:

"In view of the fact that the Knickerbocker will hereafter clear by itself, it was deemed advisable to obtain guarantees of additional cash should it be needed. These guarantees have been obtained and the Knickerbocker will be amply prepared to meet any emergency that may grow out of a change in the method of clearing. The Knickerbocker has in its own vaults eight millions in cash, and if more cash is needed it will be immediately forthcoming."

The West Is All Right.

Kansas City, Oct. 22.—Financial conditions in Kansas City are healthy, according to leading bank officials here.

W. A. Rule, cashier of the National Bank of Commerce of Kansas City, which has deposits of thirty-five million dollars, said today to the Associated Press:

"We might say that we have had an unusual demand for money, but we are running on conservative lines. Any unusual condition in New York is felt in the west, but we have every faith in the New York banks being able to handle the situation.

"West of us and tributary to Kansas City conditions have been unusually prosperous, and the country banks have plenty of money."

Stock Market Was Flurried.

New York, Oct. 22.—The stock market here was demoralized today, and was characterized by heavy selling. Prices broke wildly on opening transactions, but they rallied almost immediately. There were runs of considerable proportions on the various branches of the Knickerbocker Trust Co., but all demands were promptly met.

Government Will Help Out.

Washington, Oct. 22.— Secretary Cortelyou declined today to discuss the New York financial situation. It is understood he has ordered sixty-seven million dollars distributed among the leading national banks of New York.

A STATUE OF LAFAYETTE

GIFT OF UNITED STATES AND ITS SCHOOL CHILDREN TO FRANCE.

WAS UNVEILED IN PARIS SATURDAY

Two Years Have Been Occupied By Paul W. Bartlett, the Sculptor, in Completing the Magnificent Work.

Special to the Democrat-Sentinel.

Paris, Oct. 21.—With demonstrations of patriotism such as have seldom been witnessed in Paris in recent years and in the presence of a great concourse of people, the great Bartlett statue of Lafayette, the gift of the government and school children of the United States to France, was unveiled Saturday on Louvre square. Alexander H. Revell, as president of the Lafayette Memorial association, made the presentation speech, which was replied to by President Fallieres. The American ambassador and other distinguished representatives of both the American and French governments participated in the exercises.

The statue is four and a half metres high and is mounted on a beautiful pedestal occupying a prominent place on Louvre square. It represents Lafayette at the age of 19, when he joined Washington's army. The youthful figure, mounted on a charging steed, is clad in the colonial uniform and holds a sword aloft. The face is highly expressive, and fairly glows with enthusiasm out of its mask of bronze. Today was chosen for the unveiling because of the fact that it is the anniversary of the collection of the contributions of he American school children, who furnished the funds for the statue.

The sculptor's new work is entirely different from the original cast dedicated in 1900. President Fallieres has expressed his cordial approval of the work, and the general opinion of artists and sculptors is that the statue is a masterpiece and a great improvement on the original design.

Two years have been occupied by Paul W. Bartlett, the sculptor, in completing the work, and he considers it by far the crowning work of his artistic career. Mr. Bartlett is an American, having been born in New Haven 42 years ago. He began his career as a sculptor when a mere boy, under the care of M. Fremiet, and at the age of 14 exhibited a remarkable bust of his grandmother in the Salon. At 15 he entered Ecole des Beaux Arts, where he was a pupil of Cavelier.

In 1887 he received a prize at the Salon for his group, The Bear Tamer, now in the Metropolitan Museum of Art, New York. He was made a chevalier of the Legion of Honor of France in 1895. His principal works have been the equestrian statue of General McClellan, in Philadelphia; statue of General Joseph Warren, in Boston; statues of Columbus and Miched Angelo, in the Congregational library, Washington, and a door for the tomb of Senator W. A. Clark. His latest work, which has been a labor of love for the school children of his native land, has placed him in a high niche among the sculptors of the world.

There was a good attendance and a fine dinner was served. The first sow sold for $125, the second for $101, and the first ten head offered brought $550, or an average of $55.50 per head.

W. E. Hurlbut, of The Ruralist, has charge of the books, and felt confident the sale would be the most successful Mr. Coleman has ever held.

"WIZARD" EDISON TALKS

SAYS HE HAS AT LAST PERFECTED HIS ELECTRIC STORAGE BATTERY.

TRUCK HORSE WILL DISAPPEAR

Has Also Invented System for Building Concrete Houses That is Cheap and Yet Almost Everlasting.

New York, Oct. 19.—Thomas A. Edison, in an interview today at his Orange, N. J., laboratory in the presence of 300 members of the American Electrico-Chemical society, said he was about to bestow a gift upon the workingmen of the world in the form of a new house, which would be built in twelve hours and would endure for all time. He also said that after three years of experimenting he had made perfect his storage battery for use in motor cars and he promised that after December, when the storage battery would be placed on the market, the truck horse would disappear.

Edison Praises Marconi.

Incidentally, Mr. Edison praised Marconi as "the man for wireless work" and predicted that within ten years the Italian would be sending messages across the Atlantic ocean at a speed of 1,000 words a minute.

Mr. Edison said that as the years were piling up against him he had decided to not keep his nose so persistently to the grindstone and had cut his working day from twenty-four to eighteen hours.

"I get six hours' deep sleep in twenty-four, and I get out of bed and come back to work like a new man," he added. He revealed that he had abandoned experiments with X-rays because of fear of losing his sight. Regarding the new house, Mr. Edison said:

How He'd Build That House

"My house is built of concrete. It is the building material of the future. I have designed iron frames for the casting of a house large enough for three families. These frames will cost a builder $30,000, but they are good for 30,000 houses. They can be raised in a few hours, and then there is nothing to do except pour in the liquid concrete until the frame flows over at the chimney top. The maximum time for this work should be twelve hours."

Mr. Edison took a telegram from his pocket and held it out.

"This is from W. W. Bradford, one of Marconi's men up in Glace Bay, and he informs me messages are going across the Atlantic at a speed of twelve words a minute," said Edison. "Give Marconi ten years and he will run up the speed to 1,000 words a minute, and he won't use the duplex system, either. Marconi is the man for the wireless. I admire him and I am not touching wireless. Why should I? Marconi is making the world move in that direction, and I will look elsewhere.

The Part Distance Plays.

"That young man will soon be in competition not only with the ocean cables but with the land telegraph systems. There is an absorption waste of electricity in wires, but there is no waste in the atmosphere. To illustrate, I send 5,000 words a minute with a sending machine between New York and Philadelphia. When we reached from New York to Washington the speed was only 1,000 words a minute. When we went from New York to Charleston the speed was only forty words a minute.

Doubts the Wireless Telephone.

"The wireless telegraphy is a thing to be reckoned with, but I do not believe so much in a wireless telephone. I see Sir Hiram Maxim says he believes the energy of Niagara may be harnessed and a message sent to Mars. Hiram is a good fellow, but he gets off now and then."

Mr. Edison then told of dropping the X-ray experiments.

"I want my eyes for a few years yet," said he, "and I leave it to younger men to taackle the X-ray. There's a wonderful field there for the right man."

A Sedalia Boy Escaped.

Chief of Police Boulit has received a letter from the superintendent of the state reform school of Arkansas, asking him to be on the lookout for Charles McCuliough, a Sedalia boy, who was sent to the reform school there for one year for grand larceny, and who recently escaped. It is thought McCullough will return here.
